

# THREE POWERS APPROACH NAVAL AGREEMENT

## Canadian Churches Fear For Workers In Chinese Field

Eight Thousand Organized Brigands Under European Leader Raid and Kill in Provinces of South China; Three White Missionaries and Fifty-seven Wealthy Chinese Kidnapped.

Canadian Press

Toronto, Ont., April 1.—Missionary boards of the Anglican, Roman Catholic, Presbyterian and United Churches are to-day anxiously awaiting news of their missionaries in China. Anglican authorities have received word of the occupation of different territories by troops, but as yet nothing serious has arisen.

Bishop W. C. White, with his assistant, Bishop P. L. Osen, have charge of the Anglican mission stations situated at Kaitung and Kwetch, where there are eighteen missionaries and 152 native Chinese deacons, catechists, etc. The United Church has about 150 missionaries in China, in three main districts—South China, North Honan and Szechwan in West China. Manchuria is the Presbyterian field, and instructions have been issued by the board of missions of the Presbyterian Church that if any trouble arises the missionaries are to come out at once.

Shanghai, April 1.—Further dispatches to-day confirmed scattered reports that bandit armies were conducting a virtual reign of terror in several provinces of China, south of the Yangtze River.

From Hankow came information that bandits who on last Thursday raided and looted the city of Yanchow, Western Kiangsi Province, besides capturing three missionaries, had killed the district magistrate in oil, murdered a Chinese Christian pastor and forced the residents to pay \$50,000 "goodwill money" before they separated.

Grave fears were expressed for the safety of the kidnapped trio, which included Miss Nina Meador, Gemmelly, thirty-five, formerly of Girard, Kansas, and Thomas Wash. The other captured missionaries were the Rev. and Mrs. B. W. Porteus of England.

FOREIGNERS EVACUATE  
An expected general evacuation of foreigners from Kiangsi Province, long ravaged by attacks of the lawless bands, was reported from Nanchang, capital of the province, because of increasing danger from the bandits, who were moving northwards. Eight thousand organized brigands under the leadership of Chu Teh, bandit leader educated in Europe, were said to be menacing Nanchang. Chu Teh was believed to have 30,000 well-armed henchmen under his control throughout Kiangsi Province.

Bandits were credited in dispatches with capturing Russian, south of Soochow, fifty miles from Shanghai, killing many who opposed them, and carrying away 500 bandits on boats and craft with dead and wounded. The boats and many hands were captured, although others escaped ashore.

OFFICIALS HELPLESS  
Hankow dispatches said that 1,000 bandits had raided and looted Tanchun in southern Hupsh province. They killed fifty Chinese press officials and residents before departing with loot. A Chinese press dispatch from Amoy said that Reds were looting south of Fukien Province indiscriminately and that officials were helpless.

## Hundreds Search Banks of River For Three Boys

Metairie Falls, Wash., April 1.—Footprints of three small boys ending at the waterline of the Bend Oculle River near here, has led several hundred searchers to believe that the sons of Mr. and Mrs. Bert Ellis, missing since Sunday, had been drowned.

The boys, Cole, fourteen; Earl, eleven; and Franklin, nine, told their mother that they were "going fishing."

BRITISH NOVELIST III.

Paris, April 1.—William J. Locke, noted British novelist, who underwent an operation this morning, was reported in a critical condition late to-day. He underwent a "very severe abdominal operation," his doctors said.

## Ministers Must Get Licenses To Marry

Vancouver, April 1.—After September 1, 1930, no minister of the Gospel in British Columbia may perform a legal marriage ceremony unless he has registered his name with the provincial registrar of births, marriages and deaths at Victoria.

Forms for application under the new marriage act of 1930, passed at the last legislative session, have been prepared. Applications must be made by body in British Columbia of the denomination to which they belong.

## FIRE TRUCKS REINSTATED BY COUNCIL

Twenty-mile-an-hour Rule and Stops For Arterial Highways Scouted

Council Places Trust in Department, and Seeks Fresh Legal Advice

Fire engines of the City's Fire Department were steered over a tangled course through city by-laws and Provincial regulations in heated discussion before the City Council yesterday evening, and emerged with some of the self-imposed obstructions in their path removed. There was still need of legislative action to clarify their position, however.

It is now established that fire apparatus responding to a call can make use of such speed as is reasonable "having regard to all the circumstances." It is also established that fire apparatus have a clear preference in the eyes of the law, and that their obstruction by private vehicles will not be tolerated.

CITY-MADE OBSTACLES  
The sole remaining obstacle in the path of the fire apparatus is a city-imposed necessity to stop at arterial highways. This limitation the City Council now has under advisement, with a strong recommendation from the majority of the council that it be removed by whatever means is available, and at the first possible moment. Arising out of the discussion last night is the probability that the city will increase its property damage and public liability insurance from a total of \$50,000 now carried to something materially greater. The council also fully acknowledged the fact that its responsibility had to be borne, that responsibility would rest with the city and not devolve solely on the head of the fire chief or his men.

(Concluded on Page 10)

## NO FUNDS FOR HOME ECONOMICS

Grant to U.B.C. Was Not Large Enough For Course Last Year

Matter Up to Education Minister Governors Tell Delegation

Vancouver, April 1.—Unless Hon. Joshua Hinchcliffe, Minister of Education, requests reconsideration of the question, the board of governors of the University of British Columbia will not establish, for this year at least, a course in home economics.

This was the answer given by the governors to a large delegation representing the Provincial Parent-Teachers' Association and the Local Council of Women, which urged immediate establishment of the proposed department. If the Minister of Education desires, it was stated, a committee of the governors and those interested may be held to discuss the question further. Otherwise the governors will continue to regard it as a closed issue for this year, because there are no funds available for such a course.

It was pointed out that last year the Government grant to the university included \$20,000 for establishment of a home economics department. Of this \$15,000 was for a building and \$5,000 was for the staff. As this was not sufficient, the money was not used and the grant lapsed.

## U.S. UNEMPLOYED IN FEBRUARY, 3,700,000

Washington, April 1.—William Green, president of the American Federation of Labor, estimated to-day before a Senate committee that 3,700,000 wage earners were out of work in February, losing over \$400,000,000 in pay envelopes.

## WILL RETURN FROM NAVAL CONFERENCE

HON. COL. J. L. RALSTON  
Minister of National Defence, head of the Canadian delegation to the Naval Conference, who sails for home Saturday.

## PROPOSAL REVOLUTIONIZES CANADIAN PENSION POLICY

Memorandum Presented To-day to Special Parliamentary Committee; Federal Appeal Board and Soldier Advisers Would Be Abolished.

Canadian Press

Ottawa, Ont., April 1.—A memorandum, far-reaching in its possibilities and aimed at a complete revolutionizing of the entire machinery dealing with soldiers' pensions was presented to the special parliamentary committee on returned soldiers' problems to-day by Major G. G. Power, Liberal, Quebec, South, chairman of the committee.

The document contemplates a thorough revision of the pension administration, embodying as it does the proposals of Sir Arthur Currie, with respect to the establishment of new machinery, facilities to the soldier for the preparation of cases, the benefit of reasonable doubt being given to the claimant and other features.

A NEW COURT  
The Board of Pensions Commissioners should continue to exercise its present functions and jurisdiction, the memorandum urges, while both the Federal Appeal Board and the system of soldiers' advisers, as such, should be abolished. In their place a new court is proposed, to be called the "Pensions Court." This would consist of nine judges, not necessarily drawn from the legal profession, Canada would be divided into three districts—eastern, from Atlantic to Ottawa; central, from Ottawa to Winnipeg; and western, from Winnipeg to the Pacific Coast. Three judges would be allotted to each division, but would be interchangeable. To each court would be appointed a registrar with principal offices in Montreal, Toronto and Calgary.

WOULD BIND BOARD  
The jurisdiction of the pensions court as outlined by Major Power would be to hear and adjudicate on all claims for pensions after the said (Concluded on Page 14)

## BROKERS FIGHT OFFICE SEARCH

Solloway, Mills Seek to Carry Appeal to Supreme Court of Canada

Vancouver, April 1.—The right of Solloway, Mills & Co. Limited to appeal to the Supreme Court of Canada from a judgment of the Court of Appeal, setting aside an injunction which restrained the execution of search warrants on their premises on Granville Street, was argued before the court this morning by J. W. deB. Farris, K.C., counsel for the company, and by C. H. Locke. The latter appears for the province of Alberta, which is represented in the proceedings by J. J. Frawley, departmental solicitor, and two Vancouver police officers, Robert Knox and A. G. McNeill, as parties.

If Solloway, Mills & Co. Limited can appeal the second question which arises is whether the court should, at the request of Mr. Farris, impound, pending decision of the Supreme Court of Canada, documents sought by Alberta under the search warrants.

## Bachelor of Commerce Degree Is Available

Vancouver, April 1.—A new degree of "Bachelor of Commerce" will be available to students of the University of British Columbia as a result of courses adopted by the board of governors last night with the approval of the senate.

Establishment of this new degree results directly from the commencement of courses in commerce during the present semester. These will be largely extended next session. The new degree and course was established as a result of a demand for scientific and modern instruction in the principles of modern business.

## No Lions Rage As March Goes Out This Year

March in Victoria belied its nature this year. This usually "wild and woolly" month, which marks the transition from winter to spring, was mild and gentle, rather than stormy and strong.

The old tradition says that if March comes in like a lamb it goes out like a lion. But there was nothing of the lion in yesterday's beautiful weather, and a clear, starry night with only a gentle breath of wind marked the passing of the month. The first of the month was also a beautiful, sunny day.

March sunshine was a little more than average. The mean temperature was one degree higher than usual, and the rainfall was about the same.

## MAN PLUNGES TO HIS DEATH OVER NIAGARA

Niagara Falls, Ont., April 1.—An unidentified man leaped into the Niagara River a few feet above the American falls yesterday and was swept over the cataract to certain death on the jagged rocks 160 feet below.

## PLAN TO CHECK GANDHI MARCH

New Anti-revolutionary Party Starts Campaign in India

Poona, Bombay, India, April 1.—A definite threat to start a passive resistance campaign against the movement led by Mahatma Gandhi, Nationalist leader, was contained in a manifesto issued to-day by the founders of a new party called the "Indian National Anti-revolutionary Party." This is headed by three widely known members of the so-called depressed classes of Poona.

The manifesto says that "in view of the fact that Gandhi, dictator of the Indian National Congress, declares that the height of entry into the temples and the removal of untouchability," it has been decided to organize the Indian National Anti-revolutionary Party in order to persuade Gandhi to postpone his civil disobedience movement. The party's immediate programme will be to send out a band of volunteers to try to persuade him to postpone his attempt to infringe the salt law by resorting to passive resistance against the government.

## WIDOW OF WAGNER DIES AT AGE OF 92

Bayreuth, Germany, April 1.—Frau Cosima Wagner, widow of Richard Wagner and daughter of Franz Liszt, celebrated composer, died to-day at the age of ninety-two.

She had been ill for a long time, and as long as a year ago was said to be unable to see, hear or to leave her bed.

## PRODUCERS PLAN CLEANER FILMS

New Code For Purer Pictures Ratified in New York To-day

New York, April 1.—A new code of movie conduct was ratified to-day by the directors of the Motion Picture Producers and Distributors of America Inc., of which Will Hays is the head. The code, an announcement said, will determine the character of movies pictures exhibited in 22,000 theatres in this country. It contains the following tenets:

"Pointed profanity is forbidden."  
"Obscenity in word, gesture, reference, song, joke or suggestion is forbidden."  
"Indecent or undue exposure is forbidden."  
"That scenes of passion shall not be introduced when not essential to the plot; sex perversion or any inference of it is forbidden on the screen."  
"That the sanctity of the institution of marriage and the home shall be upheld; that adultery shall not be explicitly treated or justified."  
"That crimes against law shall never be presented in such a way as to throw sympathy with the crime as against law or justice."  
"Dances with emphasize indecent movements are to be regarded as obscene; the subject of white slavery shall not be treated on the screen."

## THREE WILL FACE TRIAL FOR FRAUD

S. E. Wallis and A. T. Weight Committed For Conspiracy to Defraud

Did It "to Help Wallis," Weight Told Accountant of Financial Firm

Stanley E. Wallis, manager of the Consolidated Motors (Victoria) Limited, and A. T. Weight, a former salesman of the firm, were committed for trial by Magistrate George Jay in the City Police Court this morning on a charge of conspiring to obtain money by false pretences from Rithet Consolidated Limited.

The hearing this morning brought to a close a list of police court charges arising out of alleged irregular financial dealings of the Consolidated Motors (Victoria) Limited. Wallis now faces higher court trial on two charges of "aid it to help Wallis," the conspiracy to defraud. Weight and Arthur Emerson will each be charged with conspiracy to defraud.

No evidence was entered by the defence at this morning's hearing and neither of the accused made any statement, the commitment being ordered when the prosecution evidence had been examined.

Stuart Henderson appeared for Wallis and C. H. O'Halloran for Weight. C. L. Harrison conducted the prosecution.

The charge arose through the discounting of a conditional sales agreement on an alleged automobile purchase by Weight from the Consolidated Motors (Victoria) Limited. No car as described in the contract existed, according to witnesses.

TO HELP WALLIS  
Weight told Louis M. Corke, accountant of Rithet Consolidated that he "aid it to help Wallis," the evidence revealed. Weight's name was signed to the agreement as the purchaser of the car.

Mr. Corke was the first witness. He said Wallis came to the office of his firm on November 18 last year with the agreement for the purchase of a 1928 Buickmobile sedan by Weight. The agreement was discounted and the sum of \$1,091.95 paid over to Wallis. Twelve notes to cover this amount were signed by Weight. Two of the notes had been met and two were overdue.

Last Wednesday morning Weight came to the office of Rithet Consolidated and said he had a number of the charges, said the witness. He asked witness if there was an agreement discounted with the firm in his name and was answered in the affirmative. He asked how much was owing on it and what were the engine and serial numbers of the car described in it.

"I asked him if it was a Buickmobile," said the witness, "and he replied that it was," said the witness.

"I gave him the information he wanted and he said he did not know what he said but wanted to check it up."

Weight also told me Wallis had approached him one day saying that he was temporarily financially embarrassed and he had a number of the floor unpaid for. He asked Weight if the latter would sign the agreement so he could pay for the car. Weight said he wanted to help him, and he signed the contract although knowing that there was no real sale. Wallis told him he would not have to meet the payments and he signed the notes regarding payments and turned them over to Wallis.

COULD NOT MEET NOTES  
Weight also told the witness that he could not meet the remainder of the notes and did not know what to do about it. He asked Mr. Corke what he thought was the best thing and witness told him he should raise the money as soon as possible.

Benjamin Good, accountant of Consolidated Motors Limited of Vancouver, testified that there was no Buickmobile as described in the conditional sales agreement. He said that the prosecution closed its case at this point and Mr. Henderson declared there was no evidence of conspiracy.

Magistrate Jay pointed out there were ten notes signed by Weight who must have known that there was no car. There was also the agreement signed by Weight.

On application for bail before Judge Lampan, Weight and Emerson were remanded on posting of \$5,000 in two sureties. Wallis is still in custody.

## Parks Board Official In Winnipeg Charged

Winnipeg, Man., April 1.—Six charges of false entries and theft, alleging appropriation of moneys of total \$2,220 to-day had been laid against James M. Blackwood, secretary of the Winnipeg Parks Board for twenty-five years. Blackwood was arrested last night and when he was set at \$20,000 he made no effort to gain freedom, spending the night in the cells. He was arraigned in court and remanded until Friday.

## Tributes at Funeral Of Guelph Editor

Guelph, Ont., April 1.—With civic honors, the funeral of James Innes McIntosh, for many years publisher of The Guelph Mercury, was held yesterday.

## WILL BE LEADER OF CANADIANS

HON. PHILIPPE ROY  
Canadian Minister at Paris, who will assume the leadership for Canada at the Naval Conference in London

London, April 1.—Hon. Col. J. L. Ralston, Minister of National Defence, head of the Canadian delegation to the naval conference, will return to Canada on board the steamship Seydlitz, which sails next Saturday.

The leadership of the Canadian delegation will be taken over by Hon. Philippe Roy, Canadian minister at Paris, and the remainder of the delegation will remain in London.

Heavy pressure of parliamentary and departmental duties attached to his post as Minister of National Defence make it necessary for Col. Ralston to return to the Dominion.

Douglas Hacking, former Under-secretary to the Department of the Navy, has been asked by the Minister whether he was yet able to make any statement on the progress of construction of the vessels. He reminded Mr. Thomas that negotiations for the vessels were supposed to be under way last November.

Mr. Thomas explained that the fall in freight rates had continued in recent months, accompanied by a substantial increase in the volume of steam tonnage laid up both in Britain and other countries. Under these conditions, the interest he was concerned had decided it would be wise not to proceed with the vessels for the time being, at any rate.

## NO ELECTION SIGNIFICANCE

Appointment of Numerators No Harbinger of Contest, Says Ottawa Dispatch

Ottawa, Ont., April 1.—A recent request issued from Ottawa to returning officers for the appointment of enumerators by May 15 is merely a step towards carrying out amendments to the Dominion Elections Act passed last session. It was stated to-day. It is officially declared that this request under the amended act has "no election significance."

Under amendments passed during the 1929 session of Parliament it was stipulated that returning officers should "forthwith" divide their electoral districts into polling subdivisions. The act as amended is only workable by the selection of enumerators and rural registrars in advance, and it is announced, for this reason and to facilitate action, returning officers were recently requested to appoint enumerators by May 15.

## SHOCK FELT IN GREECE

Athens, Greece, April 1.—A sharp earthquake was felt Monday at Volo and surrounding villages. Five successive shocks caused several houses to collapse and did much other damage. Inhabitants fled into the streets in panic. None was injured.

## KAYE DON DELAYS SPEED RECORD BID

Ocean Speedway, Daytona Beach, Fla., April 1.—Kaye Don, British car driver, to-day postponed his attempt on the world's speed record of 231 miles an hour because of rough beach conditions.

## London Conference Reports Progress Towards Security

Gloom Which Pervaded Yesterday Dispelled as Great Britain, Japan and United States Draw Closer to Terms, and Meetings Continue Between Henderson and Briand.

## MOTORISTS FIND PRICE OF GAS UP

Car Drivers Pay 33 Cents a Gallon To-day to Meet Government Levy

Tank Trucks of Oil Companies Work Far Into Night to Supply Retailers

The Government of British Columbia put over the biggest April Fool's joke this morning as many motorists discovered to their cost—at least to the cost of two cents a gallon in the price of gasoline.

To-day the increased gasoline tax, which is expected to net the provincial treasuries an extra \$300,000 a year, went into effect. As a result the motorists dug deeper into their pockets and pulled out part of the three hundred grand.

The retail price of ordinary gas is now 33 cents a gallon while ethyl sells at the rate of 35 cents a gallon.

Gasoline retailers all over the city will cash in on the jump in gas prices to the tune of two cents for every gallon—their tanks—would hold. Trucks operated by the various local oil companies worked far into the night to give everyone a full tank before the price increased.

Motorists in Seattle can "fill 'er up" for a little over a dollar.

## SHELVE PLAN TO SEND COAL HERE

British Proposal to Build Special Ships Dropped For Time Being

London, April 1.—The proposal to build five steamers of 7,000 tons each, for the carriage of coal from Britain to Canada, has been dropped for the time being in view of changed shipping conditions, Rt. Hon. J. H. Thomas, Lord Privy Seal and Minister of Employment, gave this information to Parliament to-day.

Douglas Hacking, former Under-secretary to the Department of the Navy, has been asked by the Minister whether he was yet able to make any statement on the progress of construction of the vessels. He reminded Mr. Thomas that negotiations for the vessels were supposed to be under way last November.

Mr. Thomas explained that the fall in freight rates had continued in recent months, accompanied by a substantial increase in the volume of steam tonnage laid up both in Britain and other countries. Under these conditions, the interest he was concerned had decided it would be wise not to proceed with the vessels for the time being, at any rate.

## DREDGE COOK LOSES LIFE

Body of Bert Watts Found Floating in Fraser River Near New Westminster

New Westminster, April 1.—Missed this morning when the crew of the Dominion Public Works Department dredge, No. 303, got up for breakfast, Bert Watts, the cook on the dredge, was found dead in the Fraser River between the dredge and No. 1 dock of the Pacific Coast Terminal Ltd. at about 6:45 o'clock. He is said to have gone ashore Monday evening, but it is not known how he happened to fall into the river. The body was fully dressed and there were no marks of injury. The watch was still running when he was found.

As far as is known, the drowned man, an Englishman, about fifty years of age, had no relatives in this district.

## FOUR CASES GO TO GRAND JURY

Hunting Accident at Sooke and Motor Fatality in Saanich Reviewed at Assizes

Breaking and Entering Residence and Attempted Robbery Are Other Indictments

The grand jury at the Spring Assizes to-day returned no bill in the case of Rex versus Bertram Yeadon and the accused was released.

A true bill was returned in the case of Rex versus Clifford Dawley and Cecil Vipond, charged on two counts with breaking and entering, and theft; Rex versus Bertram Yeadon, attempted robbery; Rex versus Henry Plater, charged on three counts with manslaughter, doing grievous bodily harm, and doing bodily harm through furious driving; and Rex versus Rev. Samuel Lundie, charged with manslaughter.

Thomas McPherson, foreman, Hugh Allan, Harry Barnes, Fred Easthope, William Hyslop, Walter Holland, James Mitchell, George Newton, Kenneth Oldfield, Frances Pearce, William Rennie, George Strath, and Ernest Wilson compose the grand jury.

On the opening H. W. R. Moore, Crown Counsel, stated proceedings had been withdrawn against Gudar Singh, who had been committed for trial by (Concluded on Page 14)

## B. YEADON RELEASED; TRUE BILL ON LUNDIE

The grand jury at the Spring Assizes to-day returned no bill in the case of Rex versus Bertram Yeadon and the accused was released.

A true bill was returned in the case of Rex versus Clifford Dawley and Cecil Vipond, charged on two counts with breaking and entering, and theft; Rex versus Bertram Yeadon, attempted robbery; Rex versus Henry Plater, charged on three counts with manslaughter, doing grievous bodily harm, and doing bodily harm through furious driving; and Rex versus Rev. Samuel Lundie, charged with manslaughter.

Thomas McPherson, foreman, Hugh Allan, Harry Barnes, Fred Easthope, William Hyslop, Walter Holland, James Mitchell, George Newton, Kenneth Oldfield, Frances Pearce, William Rennie, George Strath, and Ernest Wilson compose the grand jury.

On the opening H. W. R. Moore, Crown Counsel, stated proceedings had been withdrawn against Gudar Singh, who had been committed for trial by (Concluded on Page 14)

## TORONTO MAN SEEKS \$1,100,000 POLICY

Toronto, April 1.—Negotiations are proceeding here for the writing out of an insurance policy totaling \$1,100,000 on the life of A. E. Wilson, local business man.

The amount is believed to be the largest for any single policy ever written in Canada.

**WEALTH OF ROCKIES WILL PAY NATIONAL DEBT, SAYS BRADY**

Canadian Press  
Ottawa, Ont., April 1.—Declaring the future greatness of the Dominion lies in the wealth of her mines, J. C. Brady, member of parliament from Skeena, B.C., asserted in addressing an Ottawa service club that the day will come when wealth will be taken from the Rocky Mountains, streams and creeks, not merely to pay the national debt of Canada, but go far in the reduction of the national debt of the empire.

Mr. Brady said he made his prediction in the face of the fact that hundreds of millions of wealth have been taken from the ground in British Columbia. The high cost of transportation, the speaker continued, constitutes the present day bar to more rapid mining development in the Pacific Coast province.

## MANY VIEWED WORK DONE AT NIGHT CLASSES

Prizes Given By Canadian Manufacturers' Association Awarded By E. W. Izard

Wide Range of Studies Taken By Students During Winter Season

The demonstration of work by night school and the Boys' Central School, attracted many visitors. The display marked the close of the series of studies conducted during the winter months. At the High School, George Jay, chairman of the School Board, presented John McCandless with a special prize for figure drawing, given by Trustee J. S. McMillan.

At the Boys' Central School, E. W. Izard distributed the awards given by the Canadian Manufacturers' Association for technical proficiency. William Strumkins won the prize for advanced machine shop practice and Patrick Munro won the award for elementary machine shop practice.

Allan Stewart received the prize for advanced machine construction and drawing while Walter Scott was

## TWO ALDERMEN ADDED TO BOARD

Aldermen James Adam and John Worthington were nominated by the city council yesterday evening as its delegates to the newly-formed Victoria Playing Fields Association. Alderman W. W. Strath credited the Junior Chamber of Commerce with sponsoring the move to enlist athletic and volunteer help in the improvement of playing fields and their facilities. C. F. Banfield, C. Milton and D. Mount are other representatives on the executive of the same body, the council was informed.

awarded the prize for elementary work in the same class.

**RESTRICTED FACILITIES**  
Trustee J. L. Beckwith spoke briefly, regretting Victoria lacked adequate facilities for technical education. The display of work done by the students included carpentry and joinery, sheet metal work, machined and tooling articles and working drawings.

**NEEDLECRAFT**  
At the High School the most notable display was the collection of garments made by the dressmaking classes under the supervision of Mrs. Carteton Lennie and Mrs. Osborne. Over forty students had been enrolled and the cafeteria was brilliantly colorful with the display of their handiwork. The collection included clothing for men and women, made of a wide range of materials, and attracted great interest.

**PROGRESS ILLUSTRATED**  
The progress of the hand-writing and bookkeeping classes was strikingly indicated by comparison of closing exercises with examples of their work at the commencement of the course. In the art and figure drawing class there were interesting examples, with posters and lettering, while the display of watercolors and landscapes was most attractive, the composition and skill in application of coloring being general to all exhibits, and commented upon by visitors as a tribute to the instructors.

## MILLION-DOLLAR HYDRO ISSUE IS PUT OUT HERE

Pemberton and Son Get 6 Per Cent Bonds of Western Power Corporation

Announcement is made by Pemberton & Son of a \$1,000,000 issue of six per cent. first mortgage bonds of the West Canadian Hydro-electric Corporation Limited.

First organized in 1927, the West Canadian Hydro-electric Corporation Limited acquired, through purchase at very reasonable prices, the municipally owned Diesel and hydro-electric plants of Vernon, Armstrong and Salmon Arm and agreed to supply these and surrounding communities with light and power from a proposed hydro-electric development at Shuswap Falls, twenty-five miles from Vernon. With their Diesel systems the various municipalities had been able to give only a limited service, which in some cases permitted only part time service and in others strict limitation of use of power for both domestic and industrial use.

In addition to acquiring the existing systems the West Canadian Corporation received twenty-five year franchises—the first ten of which were to be free from all municipal taxes. Certain difficulties in construction and financing were encountered by the company, however, and early in 1928 the firm of R. E. Wilsey & Company became associated with the company, later assuming the responsibility for the completion of the construction, placing A. C. R. Yuill, well-known Vancouver engineer, in charge of the work. To finance the balance of the construction a one-year note issue was sold. Hydro-electric power was first delivered in Vernon, Coldstream municipality, Okanagan Landing, Armstrong and Enderby on June 15, 1929. Salmon Arm was linked up shortly after. Since that time the company has extended its service gradually to include Lumby,

Canoe, Lavington and out-lying territory.

**MUCH UNDEVELOPED POWER**  
The present issue of bonds will finance on a permanent basis part of the existing funded and one-year debt of the company. The balance of these issues, together with the completion of the construction work and the retirement of certain outstanding liabilities and preferred shares of the company, is being financed by issues of debentures and class "A" shares, ranking junior to this bond issue. The proceeds of these junior issues will be sufficient after providing for these liabilities to give the company over \$150,000 net working capital, over \$125,000 of which will be in cash.

In addition to its present power development at Shuswap Falls, the company has available undeveloped power sufficient to take care of its needs for many years to come. Present hydro-electric generating capacity, together with the stand-by Diesel plants, gives the company a net annual useful output at substations of 6,400,000 k.w.h.

**LOWER THAN COAST RATES**  
Under the agreement by which the company took over the former municipal plants, rates were to be materially reduced. On the present rate basis the company's combination household rate is actually lower than any corresponding rate here on the coast. Power rates are also very low. Despite the reduction of rates the company's revenue has shown a substantial increase since the completion of the new hydro-electric unit. On the basis of contracts now completed and applications for power in the hands of the company, it is estimated that the earnings for the first full year after present financing takes effect will be more than one-and-three-quarter times the interest requirements on the present bond issue. Extension of the company's service to communities as yet unserved and a continuance of the growth in the use of power for domestic, industrial and agricultural purposes, is expected to bring about still further increases in the company's revenues. It is pointed out that the company's present generating capacity is sufficient to handle approximately double present demands without further expenditure. An important feature of the company's operations is that a large portion of its industrial load comes during the summer season when domestic demands are

light. This provides the company with an unusually even demand throughout the year.

Management of the company will remain under the supervision of A. C. R. Yuill, British Columbia registered professional engineer.

Purchasers of the bonds now being offered receive warrants to purchase the class "A" common shares of the company.

## BUILDING CUTS TO AID TRAFFIC

Corner Sidewalks Under Buildings Would Be Benefit, It Is Urged

Co-operation with building owners, concerning future buildings only, to remove bottle-neck congestion of motor traffic at street intersections, was suggested by Fred Butterfield to the City Council yesterday evening in a brief outline of his plan for intersections.

Mr. Butterfield showed drawings to illustrate his remarks. Traffic proceeding at from fifteen to twenty miles an hour, coming out some twelve feet from the curb at a corner, and this, multiplied by the number of streets and directions of traffic, created troublesome congestion which was dangerous alike to vehicles and to pedestrian traffic, he said.

If the sidewalk at such corners could be diverted actually under the building, it would leave the whole roadway for vehicles, and avert the bottle-neck effect now said to exist as a mathematical certainty. This would require co-operation on the part of land owners, and those about to build, to the extent of devoting a portion of the normal ground floor space to a rounded public sidewalk. The sacrifice on the part of the property owner would be made up by the enhanced effect of a rounded corner of window displays, and the goodwill of establishing a lasting benefit to all using the intersection, it was intimated.

The plan would not interfere with second and higher stories, but only the ground floor area at the corner of the property line, concluded Mr. Butterfield, who was thanked for his instructive exposition of the new theory.

## BIG B.C. BOND ISSUE IS SOLD

Price of 93.67 With Yield of 4.94 Is Obtained For \$3,000,000 Loan

A syndicate composed of Gillespie, Hart and Company Limited, V. Odium, Brown and Company Limited, Fry, Mills, Spence and Company, Bell, Gouinlock and Company Limited, McLeod, Young, Weir and Company Limited, was yesterday awarded the \$3,000,000 Province of British Columbia 4½ per cent sinking fund bonds.

The tender of this syndicate was \$1.67 for twenty-five-year debenture issue to yield 4.94 per cent. It was the best price any government bonds sold since October, 1928, officials of the finance department said.

Five syndicates, comprising leading financial houses in Canada and the United States, submitted bids.

## ANNOUNCEMENTS

Dr. H. L. Lacey, chiropractic specialist, 812-3 Pemberton Building

Dr. Vernon E. Taylor, osteopathic physician, removed to 406-7-8 Belmont Building, Phone 3864.

Hudson's Bay Company Beauty Parlor—Specialists in permanent waving, hair tinting and hair goods. Phone 1670 for appointment.

Your Problems Solved by Applied Psychology, Psycho-Analysis and Vocational Guidance. International expert. Apply Mobius Studio, Balmoral Hotel, 1109 Douglas. Phone 3780.

A mission will be preached at St. Andrew's Cathedral by the Rev. Father J. Collins, C.S.S.R., and Rev. Father Kenneth Kennedy of Edmonton, beginning on Sunday, March 30, and continuing until Sunday evening, April 7. There will be a series of mission sermons each evening at 7.30. All interested are invited to attend.

Rummage Sale—Under the auspices of the Women's Parish Guild Gymnasium, Memorial Hall, Wednesday, April 2, at 10 a.m.

On and after April 1, Dr. Allan Fraser will be located on the fourth floor of the Pemberton Building.

Ladies desiring to replenish their household linen will do well to reserve the date April 9, and visit the Dollar Bazaar at Memorial Hall. Beautiful work at modest cost.

Women's Canadian Club, Empress Hotel, Friday, April 4, at 4 p.m. Tea in honor of Her Excellency Lady Willingdon. Soloist, Miss Merle North.

# CHRYSLER "77" "70"

CHRYSLER "70" ROYAL SEDAN  
**\$1815** F. O. B. Factory  
(Special Equipment Extra)

**There's something unmatched in Chrysler performance**

Chrysler today is getting more out of engine horsepower, and doing more with engine horsepower than any other make of motor car is accomplishing.

There are engineering reasons for this. Mainly it is because of the unique design and construction of the new Chrysler Multi-Range four-speed transmission and gear shift, together with high-compression engines using Down-Draft carburetion—a principle that has demonstrated marvelous results in aviation.

In every car bearing the Chrysler name, you have the safety of internal-expanding four-wheel hydraulic brakes. And in addition, today's

Chryslers offer the better riding qualities of new, luxurious bodies—with more elbow-room, more leg-room and more head-room—cradled from road shocks by a new type of equalizing spring suspension and rubber spring shackles, as well as by hydraulic shock absorbers.

In outward design, a new smartness and grace; in interior trim, a consummate elegance in the jewelry-like fittings by Cartier of New York and Paris. All in all, besides having a car endowed with the utmost in performance, the owner of a new Multi-Range Chrysler has a car that inspires a confidence and pride of ownership all its own.

There is a Canadian-Built Chrysler for every purse and every need

The "77" 9 body styles \$2095 to \$2355	The "66" 6 body styles \$1255 to \$1380

## "Mother's money has come"

IT'S a sort of festive day when mother gets her money from the postman. Now little Dick can have his football, and next month, maybe, Mary will get her parasol.

You see, not only is the door shut against the Wolf, but even little luxuries are possible in this protected home.

If takes planning of course, for the amount isn't so very large, but then, thank goodness, it always comes every month—on the very day it is due. And mother makes it go around because she can always count on it.

The father has passed on. But the evidence of his care

and love for his little flock lives after him in the shape of a regular monthly cheque from The Imperial Life Assurance Company.

"Passing on" strikes but little fear to the heart of a courageous man who knows that his dependents are safe—and no other provision is quite so certain, quite so enduring, quite so conveniently made as an Imperial Life Monthly Income.

A few dollars saved every year from money you now thoughtlessly spend would guarantee this regular income to your family.

Why not provide for it? Use the coupon to-day.

## GILT-EDGES FIRM IN LONDON, BUT RAILS ARE SOLD

Buying Keen in Municipal Issues, But Government Securities Suffer

Canadian Press Cable  
London, April 1.—The general condition of the "gilt-edge" section of the London Stock Exchange remained firm this last week. There were occasional lower quotations, however, due to the expected influx of a number of holders of these high-class securities, tempted into the market by the remarkable rise in prices during the last few weeks. Another influence of retarding character was the lesser support forthcoming from the money market.

There was keen buying for recent issues of British municipal stocks bearing five per cent, though governmental securities suffered a slight relapse. The municipal stocks, however, seemed a four-point premium in some cases, and there seems little reason to doubt a high standard of value will be maintained both in government and municipal issues. The renewal of strength, in any case, aroused the question whether the Chancellor of the Exchequer considers the time ripe for some big conversion proposals in regard to the huge mass of the five per cent war loan.

**PROFIT-TAKING IN RAILS**  
The profit-taker was abroad in the British railway market, stocks of which were also affected by a batch of disappointing traffic returns. There were several reasonable explanations for these, however. The London, Midland and Scottish Railway, incidentally, has placed directly on the stock exchange \$7,500,000 in five per cent debentures, which are being bought at a little over par.

**HARLAND AND WOLFE DO BETTER**

Harland and Wolfe, great Belfast shipbuilders, show much more satisfactory figures for the year just closed. After allowing \$1,500,000 for depreciation the net balance is \$1,870,000, or \$800,000 more than last year. There is a substantial margin over dividend requirements on first preference shares.

## DETROIT PUTS BACK ALIENS ON PAYROLL

Detroit, Mich., April 1.—The Detroit city council voted unanimously to-day to rescind its recent action barring aliens from employment by the city. Jobs of more than 1,000 city employees, mostly laborers, were effected by the order.

## MURDERED PATROLMAN

Newcastle, Pa., April 1.—A jury last night found W. Glenn Dague, former Wheeling, W. Va., automobile salesman, guilty in the first degree of the slaying of State Highway Patrolman Brady Paul and recommended death in the electric chair.

## HOUSE VOTES SUPPLY BILL FOR SERVICES

\$42,625,436, One-sixth of Estimates, Provided By Action of Commons

Ottawa, April 1.—Yesterday was the last day of the fiscal year, so the Commons in the afternoon passed the interim supply bill, amounting to \$42,625,436, being one-sixth of the estimates for the forthcoming year. Prior to the resolution being put, Mr. Bennett, Conservative leader, said he wished to draw the attention of the government to the fact that in passing the resolution the members did so without prejudice to their right to take up any grievances they might have before voting supply.

Hon. C. A. Dunning, Minister of Finance, assured the opposition leader all members' rights would be respected in the procedure followed.

The bill, based upon the resolution, then was advanced through the customary stages to third reading.

## POLICE PLANE PURSUES THIEF

Word Awaited of Two Fliers Chasing Ontario Criminal

Sioux Lookout, Ont., April 1.—Late last night no word had been received from Provincial Constable Albert Erickson, who started out yesterday in pursuit of an alleged thief by aeroplane.

Somewhere in the vast regions of the north, between Red Lake and the Hudson's Bay Company and Hudson's Bay, the plane and its passengers, the constable and a pilot-observer, must be camped.

The man they are pursuing is traveling by dog-sled, on which is presumed to be a bale of mixed furs valued at \$1,000, the property of the Hudson's Bay Company, which disappeared Thursday night last as runners of the company were taking a shipment of furs from Red Lake to Hudson. The plane's observer had not spotted the wanted man up to latest word received by Inspector Innes of the Ontario Provincial Police. The hunted man is reported to know the north like a book and his capture may be difficult. The bales of furs disappeared while the runners were asleep in camp where they had halted for the night. It is the first time on record an aeroplane has been used in a search for a criminal in the north, although the machines are frequently used for transportation of prisoners.

## BRITISH BUDGET UP \$150,000,000

Government's Financial Year Ends With \$75,000,000 Deficit

London, April 1.—The government's financial year has closed with a deficit of \$75,000,000 in relation to last year's budget compiled by the Rt. Hon. Winston Churchill, who was then Chancellor of the Exchequer.

New commitments amount to about \$95,000,000 composed of \$60,000,000 for unemployment insurance, \$25,000,000 for widows' pensions, and the rest in miscellaneous expenditures. This total of \$95,000,000, however, is offset by a saving of \$20,000,000 in the cost of the fighting services.

In view of these figures, the Rt. Hon. Phillip Snowden, Chancellor of the Exchequer, has budgeted for nearly \$150,000,000 more than Mr. Churchill did last year.

## FIVE KILLED IN CALCUTTA RIOT

Demonstration Against Law Protecting Buffaloes During Hottest Hours

Calcutta, India, April 1.—Five men were killed in rioting to-day which followed a pastime restraint demonstration against enforcement of a new rule restraining carters from taking out buffaloes during the hottest hours of the day.

One Hindu was killed when police fired on a large crowd of carters who had gathered at the Calcutta end of Whorey Bridge. The crowd threw bricks at the police and injured three sergeants.

Four more were killed in rioting this afternoon in Harrison Road, which is the usual storn quarter in this region. The district between Howrey Bridge and Harrison Road presented the aspect of a battle scene, and the streets were jammed with abandoned carts, many overturned and minus wheels.

A tense atmosphere prevailed over the area and groups of natives gathered at various spots. A procession carrying black flags with defiant inscriptions appeared in some of the streets.

## Discussions Stormy At A.P. Con Meeting

Calgary, April.—A motion to confirm and approve the actions of the Alberta Pacific Oil Company. During the past year, was defeated by a large majority on a show of hands at the annual meeting of the shareholders of the A. P. Consolidated being held here. A share vote was then demanded and this was taken.

The shareholders re-elected the complete slate of directors. The annual meeting was attended by a large number of shareholders and some of the discussions became stormy in character. A long discussion followed on the motion to appoint a special committee of shareholders to act with the directors in the coming year in an advisory character, but this was withdrawn after it was pointed out by officials that no company could work properly if its officers were hampered in such a manner.

## ESKIMOS PUT ON SAME BASIS AS INDIANS

Bill Considered By Commons; Natives Entitled to Vote, Says Lapointe

Canadian Press  
Ottawa, April 1.—Second reading was given by the Commons yesterday afternoon to a bill amending the Indian Act, and the measure was considered in committee.

Hon. Charles Stewart, Minister of the Interior, said the bill placed the Eskimos in the Northwest Territories under the same control as the Indians. There were about 4,000 Eskimos in the Territories, he said.

To Hon. Hugh Guthrie, Conservative, South Wellington, Ont., the Minister declared he did not know if the Eskimos were Mongolian. There was a differing of opinion on that point. They were presumed to be British subjects in as much as they were indigenous to territory which Canada claimed as a possession of this country.

The Eskimos were not wards of the Government in the same sense as the Indians, for no treaties had been entered into with them. As respected granting the franchise to the Eskimos, they had in the past received bounties from the Government, but the Minister would have to refer to the Justice Department the question as to their voting rights.

## ACT QUOTED

Hon. Ernest Lapointe, Minister of Justice, gave it as his impression the Eskimo was not disqualified from voting just because he was an Eskimo. He thought the Eskimo could vote provided he did not fall within the exceptions of the Dominion Elections Act. The Minister referred W. G. Ernst, Conservative, Queens-Lunenburgh, to the terms of that enactment.

Reading from the Dominion Elections Act, the Minister of Justice gave it as his opinion the Eskimos were entitled to the franchise.

Mr. Ernst expressed the view that to allow people who were receiving bounties from the Government, administered by administrative officials, to exercise the franchise was a vicious principle.

C. H. Dickie, Conservative, Nanaimo, asked Mr. Stewart if he thought the average Eskimo knew enough about Canadian institutions to cast an intelligent vote. The question of franchise had not been considered in preparing the bill, Mr. Stewart replied. The only object in view was administration.

Mr. Stewart said he preferred not to go into the question of franchise for the Eskimo at present.

Section 2 of the bill limits the use to which interest on moneys standing to the credit of an Indian tribe or annuities may be devoted, to the education of Indian children. Under the present act such interest moneys may be used for the upkeep of the school, but, as amended, it would apply only to maintenance of Indian children.

A. W. Neill, Independent, Comox-Alberni, came to the support of the Indians. "We get the Indians," he said, "to sell a piece of property for \$5,000. We pay them \$2,500 in cash and the remainder is invested. Then the Government comes along and uses the interest for relief. His point was that if the land had not been sold and therefore no money invested, the Government would have had to supply this relief anyhow. The Indians were now taking the view that when they agreed to sell for \$5,000 they really only received half of that amount because the remainder was used for assistance they would have received in any event."

## Vancouver Island News Ladysmith

Ladysmith, April 1.—Prize winners at the weekly partner whist drive held under the auspices of the Court Primrose in the Foresters' Hall, Saturday evening were as follows: First, Mrs. J. M. Thompson and Mrs. E. Skelch; second, Mr. and Mrs. A. DeClarke. Nine tables were in play.

Saturday night, a well-attended dance was held in the Foresters' Hall by Ladysmith Rosebuds basketball team. The local Boy Scouts were visited Saturday by the chief commissioner of British Columbia, Mr. Selway, and Mr. Ravenhill, chief commissioner of Vancouver Island. They were met at the station by the Scouts and later drove to the hall on High Street.

Mrs. M. A. McLeod, of Kinsinger, visited relatives here during the week. The Agricultural Hall was the scene of three games of basketball Friday evening, when the Ladysmith teams entertained two Nanaimo teams. The first preliminary game was between the local Whippets and Jazzers, the latter coming out the winner by the score of 25-21. The game was hard fought and until the last few minutes of play neither team was certain of victory. Lack of practice made both teams play ragged at times. In the second game between Nanaimo girls and the Ladysmith Felix team, the local girls played all over their opponents and won by a score of 32 to 7. Nanaimo only threatened in the first quarter when they collected all their points. The score then being 7-7. The final game then took place between the Nanaimo Galahads and the Ladysmith Rosebuds. It was a slow game, Ladysmith accounting another victory by the score of 30-14. Without the services of their star guard, Dan Kulal, the home team was at a loss in the first quarter but they soon got started and by timing each movement they scored many points.

## Fire Losses Ran High Last Week

Toronto, Ont., April 1.—Fire losses in Canada during the week ended March 28, 1930, were estimated by The Mortgage Times at \$1,507,025, as compared with \$412,125 for the previous week, and with \$397,300 for the corresponding week of last year.

## AN ABLE OFFICER RETIRES

**A FINE RECORD OF PUBLIC SERVICE**  
 came to an end yesterday in the retirement of Mr. J. E. Miller, inspector of the Department of National Revenue, after an official career of forty-seven years.

It is given to few men to spend nearly half a century in the civil service, and fewer still have the satisfaction of being able, after so long a period, to enjoy as fully as Mr. Miller does the good things which life holds for those who know how to appreciate them.

It was at Kingston, Ont., that Mr. Miller first entered the Inland Revenue Department, but the best part of his official life was spent in British Columbia, where he eventually became inspector for the district which embraces this province and the Yukon.

When the Inland Revenue and Customs Departments were combined, Mr. Miller continued as inspector, to the marked satisfaction of a host of acquaintances throughout the province by whom he was held in the highest esteem.

Although his duties have been of an exacting nature, he has found time to gratify his interest in athletics, in the promotion of which he has been a valued factor. He was an ardent devotee of rugby in his younger days and is well remembered for his active interest in the game. Indeed, most sports still find in him an enthusiastic supporter. Naturally in late years the sphere of his own participation in outdoor games has been considerably narrowed. Despite this, however, he still refuses to take any more strokes on the golf course than his moderately low handicap entitles him to accept. In golfing parlance, he wields a wicked iron.

For many years Mr. Miller has been an able officer of the Masonic craft, his name on the roster of the Supreme Grand Council of the Ancient and Accepted Scottish Rite denoting the esteem in which he is held by that body.

He carries into retirement the good wishes of a legion of friends, in which The Times heartily joins.

## UNEMPLOYMENT AND TARIFFS

**IN WHAT IT DESCRIBES "A FALLACY**  
 in figures," a contemporary which supports the present opposition at Ottawa says that "just as is the case with Great Britain, the United States is in the throes of unemployment." It observes that there are now no fewer than 4,000,000 idle people in the republic on the south, while the seriousness of the situation is reflected by the consideration of a bill in the Senate at Washington to provide for the distribution of \$50,000,000 for relief of distress. We then read:

By a curious coincidence, the population of the United States being 130,000,000, the percentage of unemployed works out at practically what it is in Great Britain. As the Americans, unlike the British, take as little notice as possible of unpleasant features of their social and economic life, there is no official explanation of why so many are now out of work. There is much misapprehension as to conditions in the Old Country as compared with other countries, particularly the United States. It appears, for example, from reports of the strike of New York dressmakers that girls work as long as sixty hours a week for \$15. We also learn that average wages paid to shop assistants in some of the big stores is a like amount, while a population portion earn considerably less. These figures do not compare favorably with wages paid in London, when it is considered that £1 in London will go much further than \$5 in New York. America has 4,000,000 unemployed; Germany has nearly 3,000,000; Italy, with a population much less than Great Britain, has 1,000,000; Austria, with a population less than that of London, has nearly 500,000. As against Great Britain's total unemployed Great Britain has to-day 500,000 more people in industry than at any previous period of her history.

These comparisons of employment conditions should be interesting reading for high tariff advocates, since they show that the solution of a country's economic problems is not to be found in a high tariff. Germany, for instance, with a population of approximately 64,000,000, or 20,000,000 more than Great Britain, has 3,000,000 idle, or considerably more than twice as many as Britain. Italy is just as badly off proportionately. Both these continental European countries are surrounded—as is the United States—by a high tariff barrier. But it does not seem to be doing them very much good.

Our Conservative contemporaries, of course, tell us that unless Canada is to remain a heaver of wood and a drawer of water for the neighboring republic, it must increase its customs tariffs, failing which, nothing will save us from the economic bow-wow.

It would be foolish to deny that there is no unemployment in Canada at the present time. There are at least three distinct temporary causes of it which no artificial formula will cure. They are: A short crop, a financial condition brought about by events on the stock exchanges a few months ago, and the usual drop in the demand for labor in some parts of Canada in the winter months.

Are we so very badly off in Canada, however? According to Mr. R. A. Rigg, Dominion director of unemployment, the latest detailed statistics with which we may compare conditions in this country with those obtaining in the United States show that the index number for manufacturing in Canada stood at 119.8 compared with 99.3 in the neighboring republic—a very definite advantage in this country's favor. It may not be that in this comparison of index numbers there is all the significance the figures would seem to suggest; but they at least show the Dominion to be in a very happy position by contrast.

## ONE PLANE TO 2,977 AUTOS

**THE SIZE OF THE FIELD THAT IS**  
 open to commercial airplane manufacturers, we are told by a well-known United States publicist, becomes evident when statistics are considered. Recent figures issued by the Aeronautical Cham-

ber of Commerce reveal that our neighbor has 9,740 licensed airplanes—exclusive, of course, of army and navy planes. This represents a huge advance over previous years, but the number is far from as large as it soon is expected to be.

A good way to realize this fact is to contrast the number of planes with the number of automobiles. For every airplane in the country there are 2,977 automobiles. This indicates the opening that is offered to airplane manufacturers. Airplanes are not yet what may be called "common."

## TWENTY YEARS OF LONELINESS

**SOMETIMES, IN A NEWSPAPER**  
 story, the facts that you can read in between the lines are more impressive than the ones that are printed.

A short time ago the papers printed a very brief dispatch from a little town in Pennsylvania. It told how a man and a woman, sixty years old, remarried one another after having been divorced for twenty years. They had had, a generation ago, a fairly long married life; then something happened and they broke up their home. But now, twenty years after their separation, they came together again, were remarried, and went to the husband's farm to live out the remainder of their lives.

That was all there was to the dispatch. But there is material between the lines to set one thinking for a long time.

What drove them apart? How did they get along during their twenty years of separation? And what force or forces, acting on their hearts in the same way, finally pulled them together, again so that they drifted back to face old age hand in hand?

All we can do is speculate. But it seems obvious that underneath every other motive there must have been the all-compelling, universal feeling of loneliness—that loneliness that no human being can ever quite escape.

Generally it takes one a long time to realize what a force this loneliness is. We are born with an illogical desire in our hearts for independence. We want to go our own way, paddle our own canoe, be self-sufficient; and often we think that we are getting away with it very well.

But the world, sooner or later, proves that we are mistaken. It is a pretty lonely place. It does not contain any excess amount of friendliness, or compassion, or kindness, or love, or faith. And those are the things that we cannot get along without. To be deprived of them is to know how terrible loneliness can really be.

So it is that we reach out our hands and grope for one another. If we are fortunate, we find someone with whom we can be in tune, someone with whom we can share our hurts and disappointments; and then the loneliness ends, as far as it ever can end on this earth. But some are not so fortunate, and they have to go on groping; or they think that their search is ended, only to discover later that the union and comradeship they sought is not where they supposed it was.

They have to resume their search, and we may imagine that this is how it was, twenty years ago, with this Pennsylvania couple. And it does not take much imagination to trace the pathetic little story from there to the end. Loneliness grew until it was too much for them; and they discovered, at last, that each, after all, was the comrade the other needed.

## WHAT OTHER PAPERS SAY

### INDUSTRIALIZATION OF THE WEST

Over \$82,000,000 has been invested in manufacturing enterprises in this province. They are paying about \$14,000,000 a year in salaries and wages to over 11,000 employees. A similar rapid development in industrialization is to be noted in the sister prairie provinces of Manitoba and Saskatchewan. Combined, the three provinces have now a yearly output of manufactured goods in the neighborhood of \$328,000,000. It is becoming more apparent all the time that the continued prosperity of the middle west depends on diversified development.

### DIVORCE

By a vote of seventy-nine to twenty-eight the House of Commons on Tuesday night defeated a bill to establish a divorce court for Ontario. In all probability a bill to establish a divorce court for Ontario will pass the House of Commons next year. The western provinces have divorce courts of their own and the issue is only of academic interest here except that it is ridiculous that the time of the western members and Senators at Ottawa should be taken up with the divorce problems of citizens of Ontario and Quebec.

### TOO FAR AND TOO FAST

Commissioner of Police Whalen is going too far and too fast in making a list of what he calls Communist agitators and organizers and then giving their names to their employers, so that they may be "fired" from their jobs. One case of injustice in such a "coming-out" might trigger a factory force against the authorities. The mere consciousness that such a threat hangs over them might well unsettle an entire plant. Are not the labor unions going to be restless under it? Are not the Communist attorneys already, trying to twist this police attack on Communism into a police attack on labor? There is no crisis justifying this extreme action of the commissioner. He is doing wrong and doing it unnecessarily. He could hardly do more if Stalin were embarking a Red army for descent upon our coasts.

### PRODUCTION OF WHEAT

Over-production is a condition which hardly can be relieved by pooled marketing if it extends beyond one season, and in Western Canada the ordinary pool resources proved unequal to the strain of carrying the unsold portion of a single crop in a falling market. To an extent low prices prove an automatic regulator of wheat acreage, but the effect marches so far behind the cause that its usefulness as a whole is lost. The fall of 1929 for the crop of 1930 was done before it became apparent the market was sliding down to the dollar, and if there is a big crop in Canada and the United States this year the difficulties of the situation obviously will be increased dangerously. Not until 1931 will the full effect on acreage be encountered of over-production in 1929.

## A THOUGHT

And all the kings of the earth sought the presence of Solomon, to hear his wisdom, that God had put in his heart.—II Chronicles 1:23.  
 Wisdom adorns riches and shadows poverty.—Socrates.

## Loose Ends

Spring seems to be here at last—and you can recognize it by certain unquestionable signs—for Homo Sapiens is demonstrating his "immortality" once more—Professor Andrews is telling England—and Tagore's reception here is the subject of a strange tale.

By H. B. W.

**THIS, JUDGING BY** all outward appearances, is spring, and we had better face it with what fortitude we can. In ancient times, we are assured by poets, many romantic phenomena could be observed at this season. Young men's fancy, it was said, lightly turned to thoughts of love, knights went out adventuring and life became quite exciting. If you will keep your eyes open for next few weeks you will see how changed and how much worse everything has become, but there are strange, if not romantic phenomena, nevertheless.

**OBSERVE HOW** the human animal, Homo Sapiens, responds to this transition of the seasons: for even though he has spent all the resources of his civilization in attempting to blot the seasons out of his life altogether, he has never succeeded. Spring still moves him in a mysterious course. Observe, then, how poor Homo Sapiens, the splendid product of this civilization, pathetically tries to undo all the work of centuries, how he attempts to forget that he is civilized at all and, in the pursuit of spring, imagines for a brief spell that he is still a splendid savage.

**OBSERVE HOW** he gazes into hardware shops on his way home from work these days and feasts his eyes on shiny shovels, hoes and water sprinklers with all the innocence and purity of a child at Christmas time. See how he purchases a new length of hose, or some fancy patented weed-killing device and fondles them like toys. Watch how fussy and particular he becomes about his seed purchases as if nothing but his garden stood between him and starvation. With what enthusiasm does he start out to dig up his little patch of ground, arranging his rows of green peas, his lettuce, potatoes and radishes with geometrical accuracy. How he waits for the first seedlings to appear, watches hourly for some sign of life, and digs up a couple of peas every day to see why they haven't sprouted! And then, when his thirty cents worth of peas do appear at last above the surface, there surges through him a thrill of accomplishment, which a \$50,000 business deal could not possibly provide.

**BUT DO NOT** look with disdain or pity upon Homo Sapiens at this season. His peculiar antics are not for amusement or despair. On the contrary, they are the best evidence, almost the only evidence we have that old Homo Sapiens, despite everything he has done to ruin himself, is still sound at heart. When, therefore, you see some stout business man, in a white collar and gloves, fondling an infant lettuce with all the tenderness of a father, do not smile. Even though you know very well that in another month he will have forgotten his garden altogether and returned once more to his golf and his civilization, do not think of him with contempt. Even though ninety per cent of the gardens planted at this season will be allowed to perish long before midsummer, do not despair. So long as hardware shops can sell shiny shovels to men who cannot possibly use them, so long as Homo Sapiens feels at this season a vague stirring in his blood which he knows from long experience will shortly be abandoned, we may still have hope for the future of the race. Homo Sapiens is smiling at this season and a little grotesque, but still, in his purchases of shiny shovels and patented weed extractors, he is demonstrating, in his absurd, civilized way, that the human spirit is an unquenchable flame.

**FROM ENGLAND** comes another charming breath of spring in the form of an article by Professor Andrews. You may recall that Professor Andrews is that disciple of the Indian poet, Sir Rabindranath Tagore, who was here a year ago to attend the National Council of Education's conference with his master. The professor is a dyspeptic-looking man with a long white beard and a far-away look in his eyes, who follows Sir Rabindranath like a child, revels in his unwieldiness, but likes to give worldly newspapermen's notices about the sage. Well, the professor has just told the people of England, through The Manchester Guardian, that when Sir Rabindranath was in Vancouver for the education conference he made such a profound impression that people stopped speech in the streets to watch him go by. The Canadian people are represented by the professor, indeed, as quite bowed over by the poet's teachings, and you gather that his visit here launched us upon a great renaissance of unwieldiness.

**THIS WILL** be good news for the people of England, and perhaps it is just as well that no one will tell them that Sir Rabindranath performed no such miracle in these ungilded regions. People did pause to watch him in the streets, it is true, because he wore strange robes and talked in stranger parables, but after noting that he was a queer old boy, went on living their usual abandoned lives. And when he spoke here and in Vancouver not one man in a hundred knew what he was talking about. Indeed, when a daring Vancouver writer asserted that most of his audience was asleep this assertion was everywhere.

acclaimed as the truth. Happily, however, England will never know to what depths we have sunk out here, and Professor Andrews will remain happy.

**THE PROFESSOR'S** statement to the people of England is no more amusing than half the information about Canada which is daily given to the public over there. In a recent issue of The Bystander, for instance, the whole of Canada is represented as clamoring for a huge navy to fight the United States, simply because one Sam Harris, president of the Navy League, Canadians have long been accustomed. Thus the readers of The Bystander are assured that the British Empire is against naval disarmament and millions of them, perhaps, may believe it.

**THEY PROBABLY** are not aware that to the great majority of the Canadian people Mr. Sam Harris is entirely unknown, even to his name. Probably it has not occurred to The Bystander either that if Canada were to arm herself on the European peace time basis in order to defeat her 5,400 miles of land frontier—not to speak of the coastline—she would have to spend \$1,500,000,000, just about four times the present national revenue, and employ some 1,500,000 soldiers. There are not that many men of military age in the country. Under this crazy programme, which Canada is represented as demanding, the country would be bankrupt in a very short time, her people would move away and finally even the soldiers would have to quit for lack of visible means of support. Then Canada could be annexed to the Equinox if they wanted her.

## The Weather

Daily Bulletin Published by the Meteorological Department

Victoria, April 1—5 a.m.—The barometer is low over the interior and mid weather extends eastward to Alberta, and is cold in Manitoba.

### Reports

Victoria—Barometer, 29.86; temperature, maximum yesterday, 61; minimum, 44; wind, 24 miles N.W.; weather, clear.  
 Vancouver—Barometer, 29.82; temperature, maximum yesterday, 62; minimum, 40; wind, 4 miles W.; weather, clear.  
 Prince Rupert—Barometer, 29.92; temperature, maximum yesterday, 43; minimum, 28; wind, 4 miles S.W.; weather, cloudy.

### Sunny Panamelaque

Panamelaque shines in the lead of the spring fashion parade. Its lustre, fine weave makes it adaptable to the more intricate hat styles.

## TWENTY-FIVE YEARS AGO TO-DAY

THE VICTORIA DAILY TIMES, APRIL 1, 1905

An investigation is admitted to be necessary into the conduct of the Lands Department. Charges were made by John Oliver in the Legislature yesterday afternoon, in which he pointed out that the statistics of the Legislature were of no consequence to that branch of the public business.

The barge Georgian, which was driven ashore on the rocks of Hornby Island a week or so ago, has been floated. Part of the machinery, which was aboard, and several of the crew, of which there were eleven or twelve all told, have been recovered and are at Union.

Weather Forecast—Victoria and Vicinity—Light to moderate winds, partly cloudy and mild with showers, chiefly at night.

When the Victoria Theatre opened last Monday with a high-class, modern vaudeville show, under the management of the Consolidated Amusement Company, the patrons of the theatre and lovers of that kind of entertainment can rest assured that a rare treat will be in store for them.

At next Monday night's meeting of the city council a report will be received from the streets, bridge and sewers committee recommending a large programme of permanent sidewalk improvements.

Mrs. Troup entertained a few friends at a tea party at "Robida" Tuesday afternoon.

The steamer Princess Beatrice sailed last evening for northern British Columbia ports. Her place on the Sound route will be taken by the steamer Princess Victoria, and it is understood that the steamer Charming will take the Vancouver run.

All communications must bear the name and address of the writer, but not for publication unless the writer wishes. The publication of letters is at the discretion of the Editor. No responsibility is assumed by the paper for the preservation or return to the writers of communications submitted to the Editor.

### OUR COAL PROBLEMS

To the Editor:—I see that the Premier is calling a sort of round-table conference to talk over the conditions now existing in the coal industry. Would it not be the wisest plan first to disseminate a little knowledge by radio, press, etc., as to what coal really is? The varieties and their uses, domesticity and otherwise, what a British thermal unit really is, and to have the metric system and calorific values explained?

I feel sure that if the people knew a little more about coal some of these high pressure salesmen would have a hard time flogging poor grade lignites on the public which are brought from outside the province when high-grade bituminous coal mined in the province can be had.

What is wanted more than anything is a research laboratory, properly equipped. This could deal with many problems which are confronting this province at the present time. It is in the branches of the mining industry, both coal and metalliferous.

Here is one for the U.B.C. or someone else to experiment with. Coal dust is with air in the most explosive. Could not this be used in some form of internal combustion engine? Most explosions occurring in coal mines are due to dust, not gas.

A.E.H.

Langford, B.C. March 29, 1930.

### ASSISTANCE DESIRED

To the Editor:—We would be very grateful if you could put us in touch with someone who would assist us in making a new start in Canada. About three and a half years ago my husband came over from England with the idea of spending a short visit. He met me, and, after getting married and a position with an American motor firm, decided to stay for a while, later on persuading me to return with him and settle down permanently as soon as we could secure sufficient for the trip. But, what with untimely work in the motor industry in England, it has, despite our best efforts, been impossible to save enough for our three fares.

We are both just over forty years of age, and there is only one girl of fourteen years. We are all willing to do any kind of work, as we realize the opportunities are so much greater in Canada, especially as our daughter.

For sixteen years I have lived five minutes' walk from London and Tower Bridge, and for thirteen years I have been employed by a firm of tea brokers in Mincing Lane. My husband has been with the General Motors both here and in America. If any of your readers would be willing to assume us of work, we would be very grateful and glad to make all arrangements to leave England as soon as possible. Thanking you in anticipation for anything you can do for us.

MRS. HALL.

308 Guinness Bldg., Snowfields, Bermondsey, London, England.

### LAND ASSESSMENT

To the Editor:—The provincial government is to be commended for increasing the assessment on Crown land, and for granting timber land. That the assessment can be increased is good proof that the value is there. The value of timber in the primeval forest is economic rent capitalized. It is an unearned value. The tax on this value cannot be passed on to the consumer, as a royalty can, but stimulates the holders to cut down the trees and compete with each other in producing lumber; this tends to reduce the cost to the consumer. The present price of lumber is exorbitant, in some cases it is three times more than it used to be. It is, therefore, most desirable that something should be done to compel those holding natural resources to make use of them in the interests of the people. The letter of Mr. F. L. Brown, that you published the other day shows that a good stiff tax on coal land is also necessary. The supineness of the public is astonishing; they pay two prices for coal without a murmur. The natural resources were placed where they are by Providence for the benefit of all; why should a few be allowed to monopolize them? Why should extortion be allowed to go on? The politicians of the past have made gross mistakes in alienating natural resources as they have done. There is, however, a sure remedy—scientific taxation.

A few ago I had occasion to buy a little bag of lumber. I was charged up on the account with sales tax; I had to stamp the cheque I used in payment and the receipt was also stamped. Three Dominion taxes on one little transaction over and above the provincial taxation. The Dominion is doing away with these nuisance taxes. But the provincial royalties periodically in-

crease. All such taxes are plainly and clearly obstructive to business, but a tax at the fountain head has the opposite effect—it stimulates production and exchange.

I believe that the Crown-granted timber land amounts only to about six per cent of the total timber of the province. The bulk of the timber is under lease, at what the timber men themselves describe as a nominal rental. This rental amounts to less than a \$1 per 1,000 feet in the course of fifty years. Is there any adequate reason why this rental should not be drastically increased? This increase could not be charged up to the consumer. It would stimulate production and cheapen lumber.

## CATTLE PRICES RISE TO HIGHEST POINT FOR YEAR

Now Up to \$2.00 Above Year  
Ago; Hogs \$1.40 Over  
Year Ago

Ottawa, April 1.—Cattle prices reached the highest point of the year to date at major stockyards in the Dominion, according to a special analysis of trading by the Dominion Livestock Branch, analysis of trade to-day.

"On one Western market the commitment was so meagre as to result in a scramble for supplies, and advances up to seventy-five cents per hundred resulted," the report stated.

"Eastern markets seem to have a better consuming power than western, but the present high prices are considered as being topheavy and liable to break under any appreciable upturn to volume."

"Hog markets were limited, with a very narrow inquiry from United States points."

"Hog markets throughout Canada made another price advance. The appreciation being anywhere from fifty cents to seventy-five cents per hundred."

"Hog volume is such as to indicate moderate country holdings. Confidence in the market is manifest in the very keen demand for feeders at or around bacon hog values."

"Western lambs continue to make up a large part of the offerings at Toronto. Demand appeared to be rather limited, particularly in the west. Trading is slow."

"Cattle top for Canada is now \$11.50 and from \$1 to \$2 above a year ago."

"The hog top at \$14.25 in Toronto is \$1.40 above a year ago. Some markets, however, show less spread."

"Lambs had their highest market at Montreal at \$14. Prices are from \$2.50 to \$3 below 1929."

"The branch announces that the change in the market nomenclature adopted in reporting the market will go into effect immediately."

## AS FIRE SWEEP NEW ORLEANS DOCKS

This spectacular picture shows vividly the onrush of flames and smoke that added another \$1,500,000 fire loss to the history of the port of New Orleans. A fire tug is pouring streams of water on the Esplanade Avenue wharf. It was the second disastrous waterfront fire within two days at New Orleans.

## Canada Dollar At Par; U.S. Banks May Now Eliminate Discount

By KEN CLARK

Canadian Press Staff Correspondent

Washington, W.C., April 1.—The Canadian dollar being back to par in the New York market, it is understood the Federal Reserve Board will shortly consider its plan for guaranteeing through member banks acceptance of Canadian currency at the prevailing rate of exchange less one per cent for cashing charges.

It is not impossible that the plan may be put into execution, although recently when Canadian exchange was at a considerable discount there was talk of indefinite postponement.

The recovery of the Canadian dollar last month is said here to be more remarkable inasmuch as Canadian exchange is ordinarily at a low during

March. A variety of suggestions were offered, one being that relatively high money rates in Canada had attracted United States funds and that the phenomenon might be attributed to financial circumstances rather than to the underlying situation. It was observed, however, that the Canadian imports from the United States fell off about nineteen per cent during February.

## MANITOBA GAME LAW DISCUSSED

Sportsmen and Fur Traders  
Offer Conflicting Views

Canadian Press

Winnipeg, Man., April 1.—Manitoba Government's new game and fisheries bill came in for a cross-fire of criticism when the law amendments committee heard delegations to-day.

Representatives of hunting organizations bent on preserving the rights of sportsmen "of modest means" in the province's marsh lands and those interested in construction of a great fur industry presented conflicting views to the committee.

R. W. Craik, K.C. of the Industrial development board and the Muskrat Breeders' Association predicted a prosperous future for the fur industry in Manitoba if the new act provided adequate safeguards.

Hugh G. Montefiore, president of the Manitoba Game Protective League, pleaded for retention of the accessible public hunting grounds for the man of small means.

## COMPENSATION ACT AMENDMENT LOST

Winnipeg, Man., April 1.—A Conservative amendment to the Workmen's Compensation Act was defeated in the Manitoba Legislature last night. The vote was 21 to 16.

The amendment, sponsored by J. T. Harg, Conservative, Winnipeg, proposed an extension of time for reporting cases of hernia from 72 hours to 36 days.

## HUNGER MARCHERS BOUND FOR LONDON

Glasgow, Scotland, April 1.—Bearing banners with the slogan "Underfed and Underpaid Under the Labor Government" a party of eighty "hunger marchers" participating in a march of unemployed from all over Great Britain set out for London to-day to protest to the Cabinet against unemployment conditions.

They were accompanied by a septuagenarian named Charles Teasdale, who will cook meals for the party in a field kitchen hauled by the marchers.

The marchers expect to arrive in London by the end of April and hope to interview prominent cabinet ministers.

## HUNDRED CARS LOST IN FIRE

Toledo, April 1.—More than 220,000 damage was done by a spectacular fire which swept the loading docks of the Willis-Overland Company yesterday and buried more than 100 cars, thirty-one box cars and a 700-foot loading dock.

Alfred B. Quay, secretary of Overland, estimated his company's loss at \$125,000.

The freight cars thirty-one of them, were valued at \$135,000.

## Jews Complain Of Social Persecution

Toronto, Ont., April 1.—Addressing members of the local branch of Ahadassah yesterday, Mrs. Archibald Silverman, vice-president of Zionist organization of America, said Jewish students are being socially ostracized in the universities of Canada and United States, and that there was a world-wide persecution of Jews on social grounds.

## IS HONORED BY DAFFODIL TEA HER COLLEAGUES ON NEXT WEEK

Miss Lillian Down, Legal Stenographer at Courthouse, Recipient of Wedding Gift

Miss Lillian Down, a member of the staff of the Provincial Courthouse, who she has occupied the position of legal stenographer to judges of all courts, was the recipient of a beautiful gift from members of the staff in a brief ceremony yesterday. Miss Down is leaving the service to be married to Commissioner Bryan, head of the Alberta Provincial Police.

Judge Lampman made the presentation, a beautiful cut glass punch bowl set which was accompanied by a profusion of flowers. His Honor referred to the high esteem in which Miss Down had been held, and to the genuine sense of loss her departure would mean to those accustomed to the able execution of her duties. Her loyalty, good temper and ability had been notable, and her fiancé was to be congratulated heartily, concluded His Honor.

Stuart Henderson added congratulations from the members of the legal profession.

Miss Down replied briefly, commenting on the pleasant relationships at the courthouse and tendering her thanks for the present.

### J.B.A.A. DANCE

In honor of their intermediate rugby team, the J.B.A.A. social committee will hold a dance at the clubhouse Friday evening. Considerable trouble has been taken by the committee in charge of the event, and an enjoyable time is promised those who attend the function.

## LABOR WOMEN ASK FOR BIRTH CONTROL CLINICS

Winnipeg Convention Urges State Control of Hospital, Medical and Dental Services

Would Establish Medical Board to Sterilize Mental Defectives

Canadian Press  
Winnipeg, Man., April 1.—Establishment of birth control clinics in connection with hospitals, provided over by medical authorities and alteration of the criminal code of Canada so that circulation through the mail of literature dealing with family regulations may become legal, were advocated in resolutions adopted at the closing session of the Labor women's social and economic conference here yesterday afternoon.

STATE HEALTH CONTROL  
It was also urged that hospital, medical and dental services be placed under state control, that Federal system of pensions for the blind be established, and a medical board appointed with power to sterilize those whose offspring would in their opinion be a detriment to society. Opposition to compulsory vaccination or inoculation was recorded.

Mrs. R. Perry, of Regina, was re-elected president of the conference; Mrs. D. W. Hunt, Calgary, secretary-treasurer, and Miss Beatrice Bridgen, of Brandon, general secretary. Provincial vice-presidents are: Alberta, Mrs. D. G. Bell, Edmonton; Saskatchewan, Mrs. A. M. Eddy, Saskatoon; Manitoba, Mrs. Mabel Allen, Winnipeg; Ontario, Mrs. C. Cavett, Kenora; Mrs. Zen, of Edmonton, was elected vice-president for Ukrainian work, and Mrs. J. Ringwood, Edmonton, vice-president in charge of young people's work.

BIRTH CONTROL  
Birth control was a phase of the new adjustment taking place as a result of the new intellectual and economic status of women, said Dr. H. M. Speechley, of Winnipeg, in an address delivered at the afternoon session. As a measure to safeguard children against being born into conditions under which they would not have an opportunity to develop into healthy normal human beings, it was justified, he expressed the belief that provision surgery were being carried out for the purpose of information and advice to mothers.

Mrs. G. Latham, of Edmonton, advocated the reduction of the age for eligibility for pensions to sixty years. Mrs. Jean McWilliams, of Calgary, urged for more education against useless surgery, and maintained that vaccination, use of serums and useless surgery were being commercialized by the medical profession.

Education of parents in the prevention of juvenile delinquency was suggested by Mrs. A. M. Eddy, of Saskatoon. Lack of sympathetic companionship on the part of parents to their children and personal participation in their interests was held by Mrs. Eddy to be among the principal causes of juvenile delinquency.

## CHAPTER PLANS GARDEN PARTY

Margaret Rooke Robertson I.O.D.E. to Hold Affair in June

Encouraging reports of its many activities were presented at the monthly meeting of the Margaret Rooke Robertson Chapter, I.O.D.E., yesterday afternoon at the headquarters, Union Building, with the regent, Mrs. L. A. Genge in the chair.

Correspondence included a charming letter from the honorary regent, Mrs. J. H. Todd, thanking the chapter for copies of its annual reports.

Mrs. Genge was appointed the chapter's delegate to the Provincial Chapter annual meeting April 24 and 25, and all members were urged to attend. Members intending to attend the dinner to be given by Municipal Chapter on Thursday, April 24, at the Empress Hotel, were asked to communicate with Mrs. Cooke, telephone 8127.

Mrs. J. Gordon Smith, the treasurer, reported a balance of \$182.75 in the treasury. The usual monthly subscriptions were ordered paid, and it was decided to send affiliation dues to the League of Nations Society and Navy League. Mrs. Luney, Echors secretary, gave a most interesting report of the recent meetings of the Municipal Chapter.

Miss B. Wilson, educational secretary, gave a graphic description of the presentation of framed pictures of the King and Queen to the Hillside Company of Girl Guides, the company adopted by the chapter. Mrs. Genge made the presentation, accompanied by a delightful little talk, after which the children played games.

Tentative arrangements were made for the chapter's garden party to be held early in June.

## Thin Sickly Child Backward in School

Help the pale, puny, delicate youngster who hasn't enough energy to go out and play like other children. It is your solemn duty, mother, to give your boys and girls the flesh-strengthening, strength-building benefit of McCoy's Cod Liver Extract Tablets—they can start too soon.

Children love these sugar coated tablets and you yourself won't be able to praise them enough once your kiddies grow well and strong again—once they start to add good solid flesh—nervousness disappears—their happy laughter, sunny dispositions and healthy little bodies will warm your heart, 60 tablets, 60 cents at MacFarlane Drug Co., Owl Drug Co., Vancouver Drug Co., or any druggist.

## VICTORIANS EN ROUTE FOR ENGLAND

Miss Laura F. Audain and Miss Ena Short of Victoria are shown above, photographed aboard the Canadian Pacific liner Victoria, on which they sailed from Saint John on March 21 for a three months' visit to England.

## SOCIAL ITEMS

Miss L. M. Forbes, of Victoria, is a visitor at the Forest Inn, Shawanigan Lake.

Mrs. J. J. Anderson, of Edmonton, is staying at the Forest Inn, Shawanigan Lake.

Mrs. McGuire of San Francisco is visiting in Victoria as the guest of her sister, Mrs. Cox, Newport Avenue.

Mrs. W. L. Smith, Vancouver Street, left on Saturday for Saskatoon for a month's holiday with friends.

Mrs. Lorne Campbell, 75, Charles Street, left yesterday afternoon for Vancouver on a short visit to Mrs. A. N. Skell.

Mrs. D. T. Forbes, who has been spending a week at the Forest Inn, Shawanigan Lake, has returned to her home in Victoria.

Mr. and Mrs. Jack Paterson of Victoria spent the week-end in Vancouver visiting Mrs. Paterson's mother, Mrs. A. E. Griffin.

After spending the last year in Europe Mr. and Mrs. Sidney Kelly and Miss Soe Kelly have returned to their home in Vancouver.

Miss M. K. Sargent, Miss A. H. Sargent and Miss B. Sewall, all of Portland, arrived in Victoria yesterday on a short visit and are guests at The Astor.

After a short visit in Victoria with his parents, Mr. and Mrs. Robert Easton, King's Road, Rev. W. G. Wilson of Seattle returned on Sunday to his home in the state of Washington.

Mrs. Griesbach of "Rocabella" returned to Victoria on Saturday, after spending a few days in Vancouver visiting Mrs. George Walkem and Mrs. E. J. Palmer.

Mrs. W. Baldwin, of Okanagan Island, Okanagan, who has been spending the winter months in Victoria as a guest at The Astor, left today for the mainland on her way to her home in the interior.

Recently a quiet wedding was solemnized at 942 View Street, when Mrs. Miss Shepherd became the bride of Mr. Gustave Francis, Rev. W. G. Wilson of the First United Church officiated. Only immediate friends of the couple were present.

Hon. F. W. Bruhn and Mrs. Bruhn are spending a few weeks in Oregon prior to returning to their home at Bicknour. Mrs. Bruhn, of Slemon, has returned to her home in the interior after visiting in Victoria as the guest of Mr. and Mrs. Bruhn.

Mr. and Mrs. J. A. Cameron and son Gordon, of 1555 Pembroke Street, left Victoria on Saturday afternoon's boat for Kinderley, Sask., where they intend to make their home for some time.

Miss Frances and Margaret Amphlett, of Port Street, left for Vancouver this afternoon en route to Halifax from where they will sail next Monday for England on a two months' visit to relatives. They will return to Victoria the first week in June.

Among the visitors to the Forest Inn on Sunday were Mr. and Mrs. Alan Lake Chidsey, of Esquimalt, Capt. and Mrs. Ellis, Miss Kinney, Miss Nockle, Miss Norma Pendray, Miss Victoria Gardner, Mr. K. F. Moffatt, Mr. Alfred Carlson, Mr. and Mrs. Meredith and Mrs. D. C. Roberts, of San Rafael and party, Mr. K. Oiler, of Seattle and party, Mr. Burrows and guests.

Arrangements have been made for a bridge party to be held at the J.B.A.A. Clubhouse on Wednesday evening, April 3, under the auspices of the ladies' auxiliary, with Mrs. T. D. Roberts as convener. Tables may be reserved by telephoning Mrs. Roberts, 4574.

Mr. and Mrs. Ivor Thomas entertained at their home, 881 Dunsmuir Street, on Saturday, in honor of the twenty-first birthday of their daughter, Agnes. The evening was spent with games and dancing. The guests were: Mr. and Mrs. G. W. Bredhouse, Mr. W. E. Cockell, Mr. and Mrs. J. V. Kent-Parkes, Mr. and Mrs. E. S. Knight, Mrs. McKee, Mr. and Mrs. V. Slater, Mr. C. Storch and Miss G. Thomas. Just before midnight Miss A. Thomas was presented with a noyau after her birthday.

Mrs. Bredhouse, Mrs. Kent-Parkes, Mr. Kent-Parkes and Mr. Knight were the winners of the contests.

Mr. and Mrs. H. Hollins of 936 St. Patrick Street, entertained Friday evening at a farewell party in honor of two popular bride-elects of Oak Bay United Church choir, Miss Verlie Johnston and Miss Marjorie Oliver. A very enjoyable evening was spent playing games, a gift being presented to each bride-to-be. The supper table was decorated in a color scheme of mauve and yellow. The guests included Miss Verlie Johnston, Miss Marjorie Oliver,

## DUCHESS FOUND GASSED UNDER ASSUMED NAME

Duchess of Leinster, Former Actress, Masquerades as "Mrs. Williams"

London, April 1.—A mysterious woman known only to her neighbors in Brixton, London suburb, as "Mrs. Williams" was revealed today at a hospital to which she was taken as the Duchess of Leinster.

The landlady said she was aroused early today by violent knocking, and found an ambulance waiting. "I was told," she said, "that it had come to fetch the Duchess of Leinster to a hospital. I understood she was found in a semi-conscious condition, and that there was gas in the room."

The landlady told newspapermen that the Duchess came to her house a month ago and gave her name as Mrs. Williams, although letters came addressed to the Duchess of Leinster. She seldom went out and had only two or three visitors, one of whom was her mother, Mrs. Eberhard.

The Duchess was May Etheridge, actress, who was married at the Register Office, Wandsworth, in June, 1913, to Lord Edward Fitzgerald, who succeeded to the title of Duke of Leinster in 1922. He is a premier Duke, Marquess and Earl of Ireland. Their honeymoon was spent in Canada.

## WEDDING AT OAKLANDS HALL

Miss Evelyn C. Easton and Edgar W. Burkinshaw Wed Saturday

Oaklands Gospel Hall was the scene of a pretty wedding on Saturday evening at 8 o'clock, when Evelyn Constance, only daughter of Mr. and Mrs. Robert Easton, King's Road, was united in marriage with Mr. Edgar William Burkinshaw, youngest son of Mr. E. Burkinshaw and the late Mrs. Burkinshaw of Rose Lynn, Alberta. For the occasion, a profusion of spring flowers adorned the hall, the handiwork of Mrs. E. Easton and Miss Lily Woodward.

Given in marriage by her father, the bride was dressed in ivory satin, fashioned with plain tight-fitting, long-sleeved bodice, and skirt with elegant flaring. An embroidered Brussels net, petticoat, attached to her head with a coronet of orange blossoms, fell in graceful folds from her shoulders. Her bouquet was a shower of Ophelia roses and lily of the valley.

There were two attendants, Mrs. Kenneth Easton, matron of honor, who wore a frock of pale green flat crepe and hat to match, and Miss Lily Woodward of Portland, whose frock was of pale yellow flat crepe and hat to match. Each carried a bouquet of carnations, sweet peas and yellow iris. The groom was supported by Mr. Carman Easton of Seattle, brother of the bride, and the ushers were Messrs. Kenneth Easton and John Ewart.

During the signing of the register, Miss Ora Jealousie sang "O Perfect Love," accompanied by Miss Kathleen Cuff.

Following the marriage service, a reception was held at the home of the bride's parents, 1739 King's Road, where a large number of guests assembled to offer their felicitations. A color scheme of pink and white was carried out in the floral decorations in the home. During the reception, Miss Ora Jealousie sang "My Prayer for You," Mrs. C. A. Paul of Seattle, "The Song of the Heart," and Lillian Woodward, "When I Was With You."

Mr. and Mrs. Burkinshaw left on Sunday morning on the Emma Alexander for California and on their return to Victoria will make their home on Joseph Street.

Among the many wedding gifts was a silver tea service from the firm of S. J. Woodward & Sons, florists, where the bride had been employed. Among the out-of-town guests at the wedding were Miss Fern James of Seattle, Mrs. C. A. Paul of Seattle and Mr. Carman Easton of Seattle.

## Colwood

Colwood Hall was taxed to capacity Friday evening to accommodate the large number of patrons attending the Wilfrid Lumber Social Club's bazaar dance. Three hundred and fifty people enjoyed the dancing, the music being supplied by Charlie Hunt's four-piece orchestra.

Many unusual and novel costumes typifying "hard times" and "farm life" were worn, and the judging was a difficult task. The costume prizes were awarded as follows: Mrs. Hutchinson, farmerette; Pet. Olmeyer, farmer; Mrs. V. A. Green, Hard Time; A. Whitman, Hard Time.

Six of the tombola awards, products of the farm, were won by Mrs. W. Moyser, Miss V. Gandy, Ralph Sundin, G. Walsh, J. Carlos and A. Smith. The three cords of wood, donated by the Colwood Wood Company, were awarded to Miss Kathleen Reid, T. Millburn and D. McVee of the Eagle Taxi Company.

Progressive five hundred preceded the dancing, the winners being: First, Miss Gertrude Miller; second, Mrs. E. C. Parker; first, W. Moyser; second, Mr. Carter.

The closing card game of the season under the auspices of the Colwood Hall Committee will be held Wednesday evening, April 3. Both bridge and five hundred will be played.

Mr. and Mrs. H. I. Curtis, Mr. and Mrs. W. H. Ruffell, Mr. and Mrs. J. Ebert, Mr. and Mrs. Frank Ivings, Mr. and Mrs. T. Oliver, Miss Jean Ormiston, Miss Viola Johnston, Miss George Tapley, Miss Maggie Brynjolfson, Miss Estelle Clarke, Mrs. Edith Glen, Mrs. Sinclair, Mrs. N. Buckle, Messrs. Geo. Burnell and Hubert Ivings.

## Needless Pain!

The man who wouldn't drive his motorcar half a mile when it's out of order, will often drive his brain all day with a head that's throbbing.

Such punishment isn't very good for one's nerves. It's unwise, and it's unnecessary. For a tablet or two of Aspirin will relieve a headache every time. So, remember this accepted antidote for pain, and spare yourself a lot of needless suffering. Read the proven directions and you'll discover many valuable uses for these tablets. For headache, to check colds. To ease a sore throat and reduce the infection. For relieving neuralgia, neuritic, rheumatic pain.

People used to wonder if Aspirin might be harmful. The doctors answered that question years ago.

## ASPIRIN

DAUGHTER OF PETER HEENAN INJURED

Ottawa, Ont., April 1.—When her saddle horse ran away, stumbled in a hole and fell, Margaret Heenan, daughter of Hon. Peter Heenan, Dominion Minister of Labor, sustained painful injuries here. Miss Heenan

was thrown heavily to the ground and was further badly bruised when struck by the flying hoofs of the horse as it attempted to regain its feet. The injuries are not serious and Miss Heenan is resting comfortably at her father's residence.

Dark brown hair is more than twice as common as any other shade among English people.

## WELSH CHOIR SINGS SUPERBLY

Imperial Singers Delight Enthusiastic Audience at Shrine Hall

Repeating their former triumphs in Victoria, the Imperial Welsh Choir delighted an enthusiastic gathering in the Shrine Auditorium yesterday evening, with a programme of superlative merit. They are singing again this afternoon at 2 o'clock, specially arranged for students, and to-night in a programme entirely different from that given last night.

The gift of song seems the prerogative of the Welsh nation, and the little band of Welshmen, under the able direction of R. Festin Davies, owe their appeal not merely to the quality of their training but to the spontaneous and pleasant way which they sing. With them, singing seems to be not a mere performance, institutionalized after years of training and constant repetition, but something done for the sheer love of the doing.

Opening in traditional fashion with the "March of the Men of Gwent," sung in Gaelic, the choir at once evoked a responsive cheer in their audience, which expressed itself in prolonged applause after each number and a constant and insistent demand for encore, very graciously given. Superlative ensemble work, with flawless technique, impeccable attack and beauty of tone, marks the singing of this perfectly balanced choir, and so eloquently controlled are their voices that with confidence one may expect to see the choir in any other language, as well as in their own. The choir's repertoire is so extensive that it is difficult to list the songs which they sang. "The Lullaby," an outstanding performance, or often to almost whispered tenderness in "Sleep."

## Ile de France

where one's sophisticated comes of age

Salon Miroir of the "Ile de France" at the corner

The gypsy world of society, Tart and letters is never bored on land or sea. The "Ile de France" with its glittering modernistic salons is the gathering place of the wits and the gourmets, the stage on which one sees the smartest frocks in smartest settings... afternoon tea and evenings in the Salon. Mixte are always gay and beautifully chic. Breton sailors, trained in a long and splendid tradition... stewards who anticipate every wish... deluxe suites that couldn't be more luxurious... all outside rooms with private baths. No wonder the sophisticated take it for granted and cross the "loosest gangplank in the world"... from the heart of Manhattan to the heart of Paris.

612 John Street Phone 220

Genie Lady (Ridgely), the final number on the programme.

Among the ensemble numbers was Coleman's arrangement of "A Farewell," Bach's "Toccata and Fugue on the Organ," "The Ruck and Ruck," "My Religion's War" (Gounod), a magnificent bit of choral work, "I Give Praise" (Charles Dwyer), "Farewell to the High-land," an emotional tone-picture, and the charming "Little Tommy" (Macy), a fishing story, notable for the clever way in which the conductor, R. Festin Davies, simulated a fishing rod with his hands.

### NOTABLE SOLOISTS

Ensemble numbers were impressively sung by Harry Williams, whose beautiful lyric tenor was heard to advantage in "The Garden of Your Heart," which so enchanted the audience that they insisted on two encores. Annie Larrivée, "Judy," John Trevor, another favorite tenor, who sang "Mistress Mine" as an encore to the charming "Mountain Love" (Bogart); Elynn Maranda, a seventeen-year-old tenor, whose fresh young voice is of wonderful quality and sweetness and who gave a notable rendering of "There's a Land," and as an encore "Tiny Garden," "Sweet William," "Baritone," who sang with much feeling, "Mary O'Neil" (Carlyle), and "Friend," Henry Jones, whose fine robust baritone was heard to perfection in the dramatically sung "Swan" from the opera "Otello" and the rollicking "Compass Sergeant-Major," and Jack Newbury, possessor of a robust bass, who gave much pleasure with his singing of "The Mighty Hero," and as an encore, "When the House is Asleep."

Norman Evans, a boy pianist, lent notable support to the choir throughout the programme and in his solo number, "Quicker" (Dwyer) (Macy).

Dwight revealed remarkable artistic gifts and technique of a very high order.

To night's programme followed:

### BUTCH SCHEME FOR PAYMENTS DURING HOLIDAYS

A fund for the payment of wages during holidays to members of the painters' trade unions has been set up in Montreal. It is managed by representatives of the union—the employers' organizations having relinquished the right to representation, and the agreement providing for its establishment is to remain in force until February 21, 1931. The object of the fund is to pay workers' wages for the six public holidays and the three days' annual holidays. The resources of the fund are derived mainly from compulsory payments from the employers. The workers receive each week a stamp which they affix to their wages cards. The value of the stamp varies according to the age and wage of the worker. For workers over twenty years of age the value of the stamp varies between 0.75 and 1.50 francs. For workers under twenty years of age the employer pays half as much as for workers over twenty years of age. The total amount of these contributions is estimated at \$10,000 francs. The representatives of the fund are empowered to decide in case of dispute whether a worker is entitled to payment from the fund. All payments are entitled to be made by the fund if they have been made by a trade union for thirteen weeks, have paid thirteen contributions, and have worked for thirteen weeks at the trade—Engineering.

### Fin Dots

The police dotted vague shrinks to the recent, sweetest little pin dotted slits for suits, frocks, hats, garters and chignon evening dresses.

The average life of a diesel ship is thirty days, according to shipping authorities.

## Can Youth Be Regained?

Common sense tells us there is no magic "mountain of youth." Nor will intelligent men and women resort to the false stimulation of dangerous drugs. But if you are sincerely interested in the important problem of regaining and maintaining all the vitality of youth to a ripe old age you will find definite help in this practical method which explains the much needed Endocrine Gland System which is entirely responsible for your physical health—your mental, whether brilliant or dull. These conditions can now be controlled and is vitally important for your life's welfare! Results are truly astounding. Do you know why the Pittsburg Giant grows so much or fails? How you can reduce or gain weight without the aid of drugs, how to retain or regain comfortable effortless vision without the use of spectacles? Your first duty is to yourself. For you getting the most out of life!

If not, there is a way for you to do so.

Don't plot on discouraged even one hour more. ACT RIGHT NOW.

## HER EXCELLENCY TO ATTEND RED CROSS MEETING

Lady Willingdon Shows Active Interest in Provincial Work of Society

Lady Willingdon, who is the honorary president of the Canadian Red Cross Society in Canada, has expressed her intention of attending the meeting of the provincial branch in Vancouver during her stay at the coast, thus testifying to her active interest in the work of this organization.

### ACTIVE IN R.C.

The work of the society in British Columbia includes the providing of comforts for the ex-soldiers in hospitals at the Sanatorium at Tranquille and Mental Hospital at Esquimalt. Junior Red Cross has been organized in the schools of British Columbia and has now a membership of approximately 3,000 children who are acquiring through it the habit of healthy living and of serving others less fortunate than themselves. Through the efforts of some 400,000 juniors throughout the Dominion, 6,399 crippled Canadian children have received attention which their parents could not provide for them.

The outpost hospital at Pouce Coupe which has for the last nine years been supported by the Alberta Red Cross Society has, at the request of the Alberta division, who find themselves unable to carry on this work in British Columbia, been taken over by the British Columbia division. The hospital is operated by one doctor and three nurses and in 1929 admitted 243 cases and sixty-two out-patients. This outpost hospital is now, to a great extent, supported by the people of the district, and will only require about \$2,600 a year from the British Columbia division.

An outpost nursing station is being established in the Port St. John area, Peace River, which will take care of any accidents and sicknesses north of the Peace River, which now have to travel sixty miles to 100 miles to Pouce Coupe over roads which at some seasons of the year are almost impassable. There are about 2,500 people in this district, with new settlers coming in every day. There are nine schools with five new ones to be built. A great many of the settlers are returned men with their families. This district has been without any nursing or medical service up until now.

The total cost of the provincial branch for 1930 will be \$15,600.

To Hold Tea—The ladies of the First Spiritual Church, Harmony Hall, 724 Fort Street, will hold their monthly tea on Thursday, from 2.30 till 3.30. Circle from 3.30 till 4.50 o'clock. In the evening at 7.30 there is to be a public circle.

Corn is said to grow more rapidly on warm nights.

# Stanley Cup Finals Will Open at the Boston Garden To-night

## THE SPORTS MIRROR

TO-NIGHT witnesses the opening of the Stanley Cup hockey finals with the Boston Bruins, defending champions, at home to the Montreal Canadiens. The series is the best out of three games. Boston are highly favored to retain their title in view of the splendid record they established during league competition and also against the Montreal Maroons in the play-offs.

After a strenuous series with the Chicago Black Hawks and New York Rangers it would not be surprising if the Canadiens were not all burnt out. The Frenchmen are famed for their tremendous speed but the human body can only stand so much and the Canadiens have been certainly traveling at a terrific speed the last couple of weeks. Naturally Canadian fans will all be pulling for their "flying Frenchmen" as they want to see the Stanley Cup brought back to Canada. For the last two years it has had a home in the United States, being held by Boston last season, and the New York Rangers in 1927-28. Ottawa won the championship in 1926-27 and the Montreal Maroons in 1925-26.

The Cincinnati baseball team of almost fifty years ago had a pitcher by the name of Will White. He was looked upon more or less as a freak for he wore glasses, even while doing duty on the mound. For several leagues were without a be-expected player until 1914 when the St. Louis Cardinals bought a likely-looking prospect from Durham in the St. Louis Association. His name was Lee Meadows and he wore glasses. It had been so long since White's passing from baseball that fans had almost forgotten that a baseball pitcher could wear glasses. They said Meadows would never get any place. But he did.

Only the other day Uncle Wilbert Robinson concluded that Lee Meadows might be of great help to his Brooklyn Robins this year. He decided to give the thirty-year-old moundman the chance he asked. For several days Meadows tried his best sales talk on the managers. It began to look like the veteran would not be able to convince the Brooklyn manager. Finally Uncle Wilbert relented. Meadows broke into the big show with the Cardinals, but went to the Phillies in 1919 in a trade. John McGraw wanted Lee in the biggest kind of way while he was with the Phils—and Lee wanted to play for the New York Giants. Meadows finally was traded to the Phils to Pittsburgh where the be-expected one participated in two world series. He drew his release last year when the Phils decided to fill his place on the roster with a youngster.

It is said that Meadows could not see his catcher's signals without his glasses. With them on, however, he was a dependable pitcher. His best season was in 1925 when he pitched nineteen victories and was defeated but ten times. He has pitched over the 300 mark.

Some fearsome conceptions of golf as it will be played in 2029 resulted from a contest in the pages of the Manchester Guardian recently. The pictures of the ancient game as it will be played 1,000 years from now—if it is played at all—were very amusing reading even if they are not exactly prophetic.

The winner's effort reads like an overdone bit of G. Wells. He writes of the closing of the "Mancunian Golf Club, 2029," as follows:

"The expiration of the club's lease was marked by an exhibition game by Mr. Honorable Judge Green, amateur open champion. Her husband, Mr. Smith—by this year's act maiden names are retained after marriage—was present."

"The judge wore a radio-hat costume, automatically adjusting itself to the body's temperature. Her 'Robot Caddie' followed by the electric 'attraction' system, produced a thrill whenever her voice struck its sensitive soundboard. Judge Green's score was 81—excellent testimony to modern scientific methods. The night and day dual-focus telescopic spectacles, she landed once in the rough, but the musical purr automatically emanating from the ball quickly indicated it. The clubs used were a three-foot driver—a toy to our taller ancestors, and irons, invented 2029 from (iron) and (malle) and an 'in-all'—a hybrid—controlled niblick—cum—putter. The only ball played was an 'ever-lasting' continuously used by the judge for the last ten years."

Judge Green and Mr. Smith left after the game for the New York links in their noiseless Batplane—of the engineless pattern driven by power broadcast from KX 2."

## Battered Bruins and Tired Canadiens To Seek Championship

Defending Champions Will Take Ice Without Services of "Dutch" Gairnor, While Several Other Members Are Injured; Lionel Hitchman Nursing Battered Jaw and Lacerated Eye; Canadiens Leg Weary After Strenuous Games; Sought Postponement of First Match.

**Canadian Press**  
Boston, Mass., April 1.—In spite of all of the punishment suffered by the Boston Bruins in the play-offs with the Montreal Maroons, the Stanley Cup champions will be, almost at full strength to-night when they battle the brilliant Canadiens in defence of hockey's most important trophy.

The only Boston player who will be unable to appear to-night is "Dutch" Gairnor, whose recent operation will not permit him to don skates until Thursday, when the teams move up to Montreal for the second game of the championship series.

For weeks prior to the close of the regular National League season, there were predictions to the effect that in the event the Bruins and Maroons played off, both clubs would be so weakened that either would be easy prey for the team that survived the second and third team play-off series. At the present time, Captain Lionel Hitchman, whose recently fractured jaw was pummeled unmercifully during each of the four games with the Maroons, is still nursing the aching rip on the eye which he suffered in the final game. Marty Barry, Harry Oliver and Perk Galbraith, members of Boston's starting line of forwards, are battered and bruised. They, however, will be on the ice when the starting face-off is called. The rest of the team is also somewhat softened and since last week's final game with the Maroons, Manager Art Ross has only put players through one practice scrimmage and that was held Saturday.

**Canadiens Arrived**  
Canadiens arrived here yesterday evening and all of the regular players appeared to be in good shape for the important fray. The colorful French-Canadian team, which reached the final series by defeating the redoubtable Chicago Black Hawks in the first play-offs and followed this up with a clean sweep of the series with the New York Rangers, wanted to put to-night's game over until Wednesday.

The Canadiens' reason for seeking a postponement was the fact that in their four games with the Black Hawks and Maroons they were called upon to take part in two gruelling overtime contests, one with the Rangers being the longest game in the history of hockey. The Montrealers are pretty leg weary and wanted another day's rest before being called upon to tackle the tough Boston club. The Boston management, which appears to be on a better terms with the Canadiens than with any other club in the National circuit, would have granted this request but for the fact that Saturday night will be the last chance it will have to use the Boston Garden.

The second game will be played in Montreal on Thursday and, in the event a third game is necessary, it will be played in Boston on Saturday. The Boston hockey public, which has a great deal of affection and admiration for Howie Morens and his colorful team, will pack the Garden to the very last seat to-night and several hundreds will follow the teams to Montreal for the second game.

The probable line-up follows:  
Boston — Thompson, Hitchman, Shore, Barry, Galbraith and Oliver.  
Boston subs — Welland, Clapper, Owen, Mackay, Carson, Lane and Connor.  
Canadiens — Hainsworth, Burke, S. Mantha, Morens, Joliet and LaRoche. Canadiens subs — G. Mantha, Mon-dou, Lepine, Wasmie, Desjardins, McCaffrey and Leduc.

**Varsity Ruggers Leave For Eastern Tour on April 28**  
Vancouver, April 1.—It has been definitely decided that the University of British Columbia student English rug- by team will leave Vancouver for their proposed eastern playing tour on April 28. At least six games will be played—two in Winnipeg, two in Toronto and two in Montreal. Other contests also may be arranged.

**P.C.H.L.**  
Last night's result in P.C.H.L. play-off at Vancouver—Portland 1, Vancouver 1.

Next game—Thursday night, at Portland.

from the hole by the "never bend" gadget affixed therein.

"Returning to the clubhouse Brown remarked: 'Too bad, men are only allowed on the course two days a week.'"

The above was the third prize-winning effort and in both it was noted that women were expected to become dominant on the golf course in one thousand years. Some will rise to remark that there is no need to wait a thousand years for this to happen. The Manchester Guardian itself commented that rationalization and mechanization might well produce within a century nine-tenths of the developments suggested.

But it is doubtful whether real devotees of the game submitted the above descriptions. The dyed-in-the-wool golfer is reluctant to admit the game could be improved. And even if the supermen of 2029 are replaced by angels and super-angels, there will be many a golfer who will believe the rules of the Royal and Ancient Club still remain unaltered, just as the perhaps lesser known laws of the Medes and Persians.

## CANADIAN "SET-UP" UPSETS THE DOPE AND SAANICH UNITED MEET

Jack Gagnon Shocks Fistic World By Technical Knock-out Over "Tuffy" Griffiths.

Has Griffiths Reeling Around Ring in Sixth Round and Referee Stops Bout.

Philadelphia, April 1.— Jack Gagnon, French-Canadian heavyweight from Boston, was receiving the congratulations of friends to-day in accomplishing one of the most surprising pugilistic upsets in this vicinity in a long time.

In a bout in which he was generally figured as only second best, he scored a technical knockout over "Tuffy" Griffiths, the highly regarded heavyweight contender from Sioux Falls, Iowa, in the sixth round of a scheduled ten-round bout at the Arena yesterday evening.

Gagnon had Griffiths reeling around the ring when Referee Tommy Rilly stopped in to save "Tuffy" from possible serious injury.

The Iowa, coming to make his debut here with a record of thirty-five knock-out victories in sixty-two fights, and only one serious setback to gain a brilliant career, proved surprisingly easy prey for the right-handed smasher of the so-called Canuck "set-up."

Griffiths had the better of the first two rounds. Gagnon staggered "Tuffy" in the third with a right to the head and a few seconds later dropped him with rights to the chin. "Tuffy" took the count of six. Gagnon showed him with rights and lefts and "Tuffy" went down again, but was up without a count.

Griffiths came out fast in the fourth and outboxed Gagnon, landing several telling blows. In the fifth both landed staggering rights to the head. They clinched in the sixth after landing jarring rights to the body. Griffiths jabbed with two lefts then Gagnon shot three rights to "Tuffy's" head. The last blow sent him to the floor. The referee started counting, but before reaching ten stopped and awarded the decision to Gagnon on a technical knockout, despite Griffiths' protest that he wasn't knocked out and wanted to continue.

**Revelers Club Golf Play Won By E. Simpson**  
The Revelers' semi-annual golf championship was held last Sunday at the Cedar Golf Club. Ernie Simpson had his clubs working well and turned in a gross score of 89, which, with his handicap of 10, gave him a net score of 79, four strokes better than that of Gib. Mackie, who had a net of 78.

The scores follow:  
E. Simpson ..... 74  
G. Mackie ..... 79  
W. Connor ..... 82  
R. Butler ..... 83  
K. Cenn ..... 85  
H. Burdon ..... 86  
C. Armstrong ..... 87  
H. Molyneux ..... 88  
J. Cann ..... 89  
H. Hunter ..... 97  
J. Wheeler ..... 107  
S. Hearn ..... 109

## Hen Pheasant Strolls Into Service Shop

Taking a leisurely stroll about the city this morning, a large hen pheasant, after window shopping in several stores along Blanchard Street, marched into the General Service Station at 10:30 o'clock, and apparently unconcerned, looked over the merchandise in the front room.

Not until disturbed by the movement of the man at work in the store, did the bird show any timidity. The pheasant flew around the store and was captured by the employee, who after inspecting the bird and finding it without injury, took it outdoors and released it.

## JONES SHOOT PERFECT GOLF TO TOP FIELD

Shows Way to Rivals in Southeastern Open With Score of 144 For 36 Holes

Johnny Farrell and Tom Kerrigan Tied For Second; Horton Smith Is Fourth

Augusta, Ga., April 1.—Showing perfect figures for the first two rounds of the \$5,000 Southeastern open golf tournament here, Bobby Jones yesterday led the field of nearly 100 golfers with his 144 and showed a four-stroke lead over his rival, Horton Smith. It was the second meeting of the year for Jones and Smith. A gallery of 2,000 followed them through two rounds over the difficult par seventy-two hill course at the country club. Smith beat the Atlanta golfing barometer by a stroke in his battle at Savannah last February.

Johnny Farrell, former United States open champion from Mammoth, and Tom Kerrigan, Swaney, N.Y., professional, who led the first round with a 70, were tied for second place at the end of the day, three strokes behind Jones.

**TURNERS FIFTH**  
Smith was alone in fourth place, with 148, while Joe Turnesa, young Elmendorf, N.Y., professional, was two strokes farther away with 150. Three veteran professionals, Ed Dudley of Wilmington, Del., Whiffy Cox of Brooklyn, and Tony Manero of Elmendorf, N.Y., had cards of 152. Billy Burke of Greenwich Conn., and Frank Walsh, Chicago, posted 153. Gene Baran, who shot a great par round yesterday farther away with 150. Three day afternoon and found himself far to the rear with 154.

Several of the outstanding shot-makers of the United States will be victims of the hazards of the course and recorded high scores. These included Denny Shute of Columbus, Ohio, who had 157; Frank Bay of Atlanta, 159; Jack Forester, Hackensack, N.J., 155; Al Espinosa, Chicago, 160; Bobby Cruikshank, Purchase, N.Y., 150; Harry Cooper, unattached 156, and Roland Hancock, Lynchburg, Va., 160. Paul Runyan of Bloomfield, N.J., who won the North-South Open at Pinehurst last week, had 161 to show for his work.

## Golfer Scores A Real "Birdie," But Loses Hole

Wildwood High School golf champion, scored a "birdie" yesterday on a par 3 hole, but lost it, the deciding one of a match, without his opponent getting a hole in one. Austin and Walter Green approached the final hole on the links with the match even. Green's shot fell twenty feet from the pin. Then Austin drove, the ball landing on the green, an equal distance from the hole. But it struck a parading seagull, and the bird, startled, picked up the ball and started seaward. The gull dropped it when beyond the surf.

## McDUFFY OF THE MISSAPUTTA GOLF CLUB

"Pro Sandy has lost ten pounds from worry since I took that golf lesson. His watch stopped while he was curru' my slice and he gave me five minutes of free instruction."

## GARDEN PLANNING BIG CARD

Many Title Bouts Scheduled For Summer Season; Mandell to Meet Singer

McLarnin Will Meet Jackie Fields; Campolo May Be Matched With Carnera

New York, April 1.—Prospects for a hull market among the cauliflowerers rose sharply yesterday, with every indication business at the same old turnstiles will be brisker than ever this summer. As a follow-up to the programme, including the heavyweight title fight, June 12, at the Yankee Stadium, between Jack Sharkey and Max Schmeling, Madison Square Garden paired Sammy Mandell, lightweight champion from Rockford, Ill., for a fifteen-round title test against Al Singer, sensational Bronx youngster, in the same ball-yard, July 17.

Singer signed the papers yesterday, and agreed to take 13½ per cent of the receipts as his wages. Mandell, who trounced Jimmy McLarnin in his last championship battle here, accepted the match some time ago. He will receive the champion's 37½ per cent.

In signing yesterday Singer registered his confidence in his ability to beat Ignacio Fernandez, Filipino, in the Garden Friday night. The last time Singer tangled with the brown-skinned veteran, he was scheduled the cauliflowerers by knocking out young Al in three rounds. Since then Singer has come back, in sparkling fashion with a steady string of knockouts. "The Garden outdoor schedule also calls for a welterweight tussle between Jackie Fields, the 147-pound king from Los Angeles, and Jimmy McLarnin, Collier, who whipped young Jack Thompson here Friday night. This match will be saved for August.

Somewhere in the early summer the Garden plans a flyweight title test between Midget Wozniak, recognized as the 112-pound killer, and Frankie Ggnaro.

Kid Chocolate will be matched either with Ben Batistich, the featherweight titleholder, in a 120-pound title scrum-mage or with some one of the other well-known crack lightweight. A light-heavyweight or a middleweight championship bout may be reserved for September, when Victorio Campolo may get a chance to test the heavyweight greatness of Primo Carnera.

## GOLF TEAMS TO SEEK CUP

Women's Sides From Colwood and Oak Bay Will Play Thursday

Women's teams from the Colwood and Victoria golf clubs will meet on Thursday in their annual match for the trophy presented by J. A. Sayward, president of the former club. The "A" teams will meet at Oak Bay, commencing at 1.15 o'clock, while the "B" squads will start play at Colwood at 1 o'clock.

The Victoria Club teams were announced this morning by Mrs. B. H. Philbrick, ladies' captain, as follows:

"A" team—Mrs. Hutchinson, Mrs. W. Parry, Mrs. Helen Patterson, Mrs. Philbrick, Miss Pitts and Mrs. A. Watson.

"B" team—Miss Benson, Miss M. Campbell, Joan Hutchinson, Mrs. I. F. Hepburn, Mrs. A. D. King, Mrs. J. W. Landon, Mrs. A. V. Price, Mrs. R. Puckey, Mrs. F. Barber-Stacker and Miss Helen Wilson.

The following is the Colwood "A" team: Mrs. K. G. Allen, Mrs. Bennett, Mrs. Dunsmuir, Mrs. Alan Morfill, Mrs. J. H. Richardson and Mrs. E. E. Watson.

Colwood's "B" team follows: Mrs. H. F. Crowe, Mrs. J. H. Fraser, Mrs. J. Gray, Mrs. F. J. Hall, Mrs. H. P. Hodges, Mrs. F. Lawson, Mrs. Lee, Mrs. A. Michaels, Mrs. Morris and Mrs. C. E. Wilson.

# Playing Rules Drawn Up For New Tennis League

## Players in Three Groups To Start Play About May 15

Three Divisions May Be Divided Into Sections if Necessary; All Clubs Will Affiliate With British Columbia Lawn Tennis Association; Large Entry List Expected; Officers To Be Elected and Entries Accepted at Meeting on April 10.

Appointed at the initial gathering held last week the temporary executive of the newly-formed Vancouver Island Tennis League met yesterday evening at the office of Dr. E. W. Boak for the purpose of drafting playing rules and a constitution for the operation of the league. Those present at the meeting were Dr. Boak, Hugo Rayment, Ernest Le Quesne, Dr. Arthur Poyntz, C. F. Tyldesly and Ross Hocking.

## Pioneer Fireman Of Vancouver Passes

Vancouver, April 1.—Stephen Havelock Ramage, a member of Vancouver's original volunteer fire brigade and a resident of this city for forty-four years, died early this morning. Ramage was aged seventy-one, had been ill for two weeks.

A native of Ontario, he came to Vancouver in 1886.

When the volunteer fire-fighting brigade, under Chief J. H. Carlisle, was formed he was one of its first members.

After a lengthy discussion of the many ways in which the league could be operated it was decided to divide it into three divisions, and that the divisions would be again divided into sections if necessary.

First and second divisions will be composed of clubs of six players, who will play two singles and one double; while in the third division the teams will play doubles only. In the doubles the first players on each team will meet and the others in the order named by the team captain previous to the match. In the third division the teams will be arranged according to their strength, and will play the opponents of even rating in the other club. In the mixed doubles, so that each pair will get two matches, the first pair will also play the second, the third and fourth will meet, and the fifth and sixth pairs will round out the programme.

BEST TWO OUT OF THREE  
In the divisions where singles are played the matches will be the best two of three sets, and in the third the best two of five sets. The matter of umpires will be left to the discretion of the team captains. The executive will deal with all matters pertaining to the transfer of players to a lower section.

Considerable discussion took place regarding the standardizing of a ball for the league. It was recommended that the ball used in the major championships be the official ball for use in the league.

## TO JOIN B.C. BODY

It was also recommended that all clubs in the organization join the B.C.L.T.A., which calls for a fee of ten cents for each player. With fifteen or twenty clubs affiliated from the island the delegates to the Mainland meeting would have considerable more voting power, which is needed at the present time.

A suggestion to the effect that the club in any one division receive more than five home games a season was also agreed on.

From all accounts there will be many teams in the third division and it is more than likely that one or more sections will take care of the teams. One suggestion called for a section of clubs playing on grass courts and another playing on hard surfaces. This may be accomplished, but depends largely upon the upper island clubs, as it is important that traveling be restricted. It is quite possible that an upper island third division may be in effect, with teams entered from Duncan, South Cowichan, Chemainus, Ladysmith and Nanaimo.

Additional playing rules are as follows:

A win will count two points and a draw one point. In the event of ties in the sections the executive will arrange the means of deciding the championship. All playing dates will be arranged by the executive committee.

The captains of both teams shall, within forty-eight hours, and notice to the secretary of the result of each match, giving the names of the players in the order in which they played.

While no definite opening date is set it is expected that the league will begin some time in May. The hard-court clubs can commence before, but the grass court players will not begin before the middle of May.

The organization meeting of the league will be held on Thursday, April 10, at 8 p.m., at the office of Dr. Boak, when officers will be elected and applications for membership in the league accepted.

Club delegates are asked to supply data as to available days or dates when home matches can be played, and as to which division they intend entering.

## Fans Throw Nuts And Golf Balls As Lions Are Defeated

Spectators at P.C.H.L. Play-off Game in Vancouver Get Mad as Champions Are Defeated 3-1 by Portland in Third Game of Play-off Series; Fan Expelled From Rink for Throwing Chair and Trying to Pick a Fight With Player; Downie, Coupez and Conn Score for Bucks.

### Canadian Press

Vancouver, April 1.—Playing determined hockey from start to finish, Portland's Buckaroos got back into the Pacific Coast Hockey League title hunt by defeating Vancouver Lions, 3-1, in the third game of the final play-off series yesterday evening. It was the Bucks' first victory in the series, the Lions having won the first two games by one-goal margins. The series will be decided via the best three-out-of-five-games route. The teams move to Portland for the fourth game Thursday night.

Yesterday evening's game was the best of the series to date and was packed with incident and thrills from start to finish. Twice the contest was held up while the ice was cleared of articles tossed on the surface by irate fans who took exception to rulings of Referee Mickey Ion which adversely affected Vancouver's fortunes. Once in the second session, two successive penalties to Doug Brennan, Husky Lion defenseman, brought down a shower of everything from paper and peanuts to golf balls and chairs, while the fans repeated the dose in the third frame when Joe Jerwa, Brennan's defence companion, was penalized at a time when the Lions were pressing to make up for lost ground. The latter disturbance culminated when one fan was expelled from the rink for chucking a chair on the ice and for trying to pick a fight with one of the Portland players.

Downie's goal was the only counter in the first session, while the middle frame was scoreless. Midway through the final frame, Portland made it 2-0 when Coupez got loose behind the Vancouver net and circled out front to slip past Jackson. The two-goal reverse did not deter the Lions, however, and they continued the strong attack on the Portland net which they had started earlier in the period. Their efforts were finally rewarded when Arnott whipped a tricky one from the blue line which tricked Aitkenhead. The Lions then redoubled their efforts, but with less than two minutes to go, Conn broke away from the sustained local attack and skated the length of the rink to clinch the contest by beating the unguarded Jackson.

THE LINEUPS  
Vancouver—Jackson, J. Jerwa, Brennan, Beattie, McAdam and Sanderson.  
Portland—Aitkenhead, Pratt, McGoldrick, Conn, Teel and Lyons.

Vancouver subs—Cummings, Dunn, Arnott and J. Jerwa.  
Portland subs—Coupez, Armstrong, Huffman and Downie.

Referee—Mickey Ion.

SUMMARY  
First period—1, Portland, Downie, 6:42.  
Second period—No score.  
Third period—2, Portland, Coupez, 10:58; 3, Vancouver, Arnott, 5:40; 4, Portland, Conn, 1:26.

PENALTIES  
First period—None.  
Second period—Brennan (2) and Pratt.  
Third period—Teel, Pratt and J. Jerwa.

## TOWNSEND IN FINE SHAPE FOR TO-NIGHT

Canadian Lightweight Champ To Engage in Second Bout With Santiago

Packed House Will Watch Fighters Perform; Winner Will Meet Al Gordon

Los Angeles, April 1.—Rumors that Billy Townsend, Vancouver lightweight ace, was having much trouble in making the required 135-pound mark set for his return ten-round battle with Armand Santiago, Cuban battler, here to-night, were refuted by his manager, Jack Altan.

To assure those interested Townsend climbed on the scales before newspapermen and weighed slightly more than 135, which means that he is practically there.

Their dramatic, almost double knockout, battle of a few weeks back has headed the coming return match to a fever pitch, and a complete sell-out is already assured, with tarty fans offering two and three times the price to secure pastaboard, which are not available even from scalpers.

A battle with Al Gordon, hard-knock Philadelphia lightweight, is on the cards for the winner.

Joe Townsend, younger fighting member of the Townsend family, is scheduled to meet Rito de Puyari, Filipino lightweight, in a six-rounder on the same card.

## Two-handed Chest Shot Used in Haste

By SOL METZGER

The Athens Texas, H. S. five that won the Chicago University inter-scholastic basketball championship tournament last winter is going just as strong as ever this season. While its success is due to its mastery of fundamentals it has some well planned and unusual plays. Take this centre play as an example.

No. 1 taps to guard No. 4 rushing up court. Forward No. 2 on that side has feinted for the basket and then cut back. He gets a quick pass from No. 4. Meaning guard No. 5, seeing No. 4 get the tap, comes up like a shot, forward No. 3 already having rushed back into the guard area. As No. 5 comes pelted up court No. 2 passes to him at about the foul circle. No. 5, if rushed immediately tries a long two-handed chest shot for the basket.

## Frank Klaus Was a Game Battler, But This Time He Was Frightened

Frank Klaus was as game a fighter as ever rubbed his shoes in the old resin box—but I saw him frightened nearly to death once.

That was in 1912 when Frank Engle brought Klaus, then the leading contender for the middleweight title, out to the Coast to fight Sailor Petroky. I was signed on as a trainer, and before setting down to work, I took Klaus for a drive in my car.

We wound up in the Stockton insane asylum—wait a minute—just to have Klaus meet the superintendent, Dr. Clark. We were being shown through the institution. Klaus was walking at the rear of the party. Back of him walked a huge, muscular man, who started following us around the asylum.

Most of our party passed out of a padded room, the door suddenly shut, and a lock snapped. Klaus and the big guy were inside. I yelled to Dr. Clark; he frantically unlocked the door. Klaus was unhurt—but perspiring.

A little later, while we were lunching with Dr. Clark, Klaus suddenly looked up to see that same man looking at him through a window. This time Klaus let out a yell, and we made our farewells in a hurry, deciding to eat at a hotel.

Just as we had finished this second lunch, and were all calmed down and about to get in the car, Klaus fell on the back and turned ground to see the same huge man again. This time Klaus almost passed out.

"It's all right, Mr. Klaus," said the big guy. "I've been trying to get a chance to tell you you were in no danger when we were locked in that padded cell. You see, I'm a guard at the asylum."

## TRAINING GOSSIP

If they could play all their games in "Yankee" League ball parks the New York Giants might set a few home run records. In two games since they broke camp at San Antonio, the Giants have collected seven four-base blows, five of them in yesterday's 11-7 victory over "Starvation" Fred Lindstrom, making his first appearance in a game this year, and Johnny Mostil, playing his first full contest, were among the home run hitters.

George Earnshaw, big right-hander of the Philadelphia Athletics, said today he would easily more than 200 pounds when the champions open the season. Given reasonable support Earnshaw predicted that he

### NEW SCORING SYSTEM FOR FOXES FIXED

Canadian Silver Fox Breeders' Association Meets Demand of Purchasers

By ROBERT G. HODGSON

Word comes from Prince Edward Island to the effect that not only will the new C.S.B.A. fox scoring system cover Prince Edward Island, but the whole of Canada; that arrangements have already been made to do this and the necessary men have been appointed. A uniform system has been established for scoring and Canadian breeders need no longer depend on the United States systems, which have been fine in their way and have doubtless given Canadian breeders good service. A country that has produced an industry that has spread throughout the world, required a system of its own for even United States purchasers who are so close to Canada have often remarked on the fact that Canada had no system whatever for the scoring of foxes. The Canadian Silver Fox Breeders' Association has established a world record for itself in the registration of foxes, and there is no reason why the scoring system cannot be built up in the same way.

to signify accuracy and dependability on foxes coming from Canada.

#### INSISTENT DEMAND

For quite some time there has been an insistent demand among fox breeders for a scoring system in Canada. While the fox breeders recognize the benefits of registration, the registration alone is no criterion of the exact value of the individual fox. The only way to arrive at this is by means of scoring the animal.

Scoring was banned by the Canadian National Fox Breeders' Association several years ago for better or for worse, and as there has been no scoring system available in Canada and purchasers demand their animals scored by points, it has been necessary for fox breeders to import judges of the American systems at considerable expense.

The C.S.B.A. scoring system as developed at the present time has been used successfully in Canada for many years. Originally it was prepared by one of the best-known Canadian fox breeders, and was submitted to the organization meeting of the American Fox Breeders' Association, being adopted by this association with a few minor changes. When the National Fox Breeders' Association was established this same Canadian fox breeder was a member of the committee that prepared their scoring system. At the first International Silver Fox Exhibition held in Montreal in 1920 all foxes in the show were scored by this system, and the prizes awarded accordingly. At the second Canadian International Show, held in Toronto in 1922, and again at the same show in 1923, this system was employed in the scoring of all foxes.

#### DIFFERENCE IN COLORS

There are some further points we feel should be brought forth in scoring foxes. First in the classification of

foxes our score sheet shows a dividing line. Extra dark shows ten per cent or less in silver, but ten per cent is the line, and between the dark and medium twenty-five per cent is the line. Dark medium and medium are divided on the 40 per cent line, and between medium and light the percentage is 60, while 75 per cent divides the light and pale, and pale may have any percentage of silver at all over 75. This is a distinct and definite division, which should be very satisfactory to people buying.

When it comes to the size of the animal ten points are allowed. Five points are allowed for conformation. This has been followed fairly close in all scoring systems.

When it comes to judging the fur we deal first with guard fur, and the twenty-five points allowed for this feature are divided in five ways, covering the neck, the shoulder, the body and the flanks, while the fifth one deals with the length of the fur. This, as you will know, gives the judge no option on the case. He must judge the fur on every part of the body for density and for length.

**TEXTURE**

When it comes to color, which is the most important feature of all in the pelt, we divide the pelt into two features. One deals with the under fur and the other with the guard fur, and when it comes to textures we allot twenty points, and allot it in exactly the same way. The judge has no options in the matter, and the question of texture is judged by itself quite apart from the sections headed guard fur and color.

The final item is the brush. In this we deal with the size and the color, the brush being judged by itself quite irrespective of what the body of the fox may be like.

The total score for these points is 100, and no reference whatever has been made to the tip in making up that score. You can see that when a fox is judged by this system he is judged on his merits, the density, the length, the texture or the general quality of his fur, will indicate exactly what the pelt value of that animal is. It is quite impossible for a fox with a large tip to score any higher than one with no tip at all, providing their pelts are of equal quality.

#### TIP IS IMPORTANT

Under all other systems this question of tip involved the score of the fox to such an extent that the total score was no indication whatever of the quality of the fox. The tip on this score card is dealt with under a different heading. The length of the tip is given in inches and a notation is made whether it is full, medium or a slight tip, and a notation also is made if it is clear or cloudy. So our score card not only tells the quality of the fox in the total score, but also gives full particulars of the tip the animal carries.

Practically all scored foxes are purchased on a contract specifying the number of points they shall score. As an instance, a certain fox was scored by the Brakett system, and awarded 80 points. Another fox in the same ranch of the same quality was awarded 95½ points. Both foxes were sent to the exhibition at Toronto, the one that was allotted 80 points had a very small tip, but was placed first in her class of pale silver adult females. The one that was scored 95½ points did not get in the money, but was placed much lower on the table. We could cite a great many cases where a very ordinary fox was awarded

a good score because of his exceptional tip, and many cases where real high-class foxes were given a very small score because the tip was not there.

By WM. E. GILROY, D.D.  
Editor of The Congregationalist

There is a great deal of difference between mere impulses of good will and real actions that are uplifting and helpful. It is one thing to have very generous thoughts of our fellowmen and kindly feelings, but quite another thing to stretch forth hands of co-operation and brotherly assistance.

There is a richly symbolic suggestion of this in the story of Peter and the beggar who sat at the beautiful gate of the temple. As Peter entered into the temple the beggar looked up asking for alms. When Peter said "silver and gold have I none," the beggar must have experienced a disappointment; despite Peter's sympathetic glance and interest.

When Peter said, "but such as I have give I thee," the beggar still may have doubted the ability to help him of one who had neither silver nor gold.

But when Peter took the beggar by the right hand and lifted him up, the beggar must have experienced a new thrill and a new joy in the consciousness that strength had come to his limbs.

It is the power of the strong right arm that ultimately demonstrates the power of the loving and gracious heart. The strong right arm, alas, has been too often given to deeds of violence even in the name of civilization. The great social task of the modern world is to consecrate the power of the strong right arm to inner purposes of love and righteousness and truth.

### MARCH BUILDING ACROSS CANADA SHOWS UP WELL

Total of Contracts Not Far Behind That of Year Ago

The estimated value of construction contracts awarded throughout Canada during March amounted to \$24,363,000, says MacLean, Building Reports Ltd. This is a high total for March, judging from the records of past years. March a year ago reached twenty-seven millions.

Compared with the first quarter of 1929 new construction, all types, is

down 7.4 per cent. Public works and utilities are ahead 33.5 per cent; the strictly building groups down 26.8 per cent. The shrinkage in building contracts is not so pronounced as it was a month ago.

#### BUSINESS BUILDING LEADS

In Ontario during March new contracts were reported to the value of \$9,595,000, being 39.5 per cent of all contracts in Canada for the month. Quebec had 35.8 per cent, valued at \$4,442,200, or 10.5 per cent; British Columbia \$2,128,500, or 8.8 per cent, and the Maritime Provinces 5.8 per cent, or \$1,417,200.

By groups, for March, business buildings led with 47.7 per cent or \$11,561,000. Residential followed with 25.3 per cent on contracts valued at \$6,124,000. Engineering showed \$5,135,700 or 21.2 per cent, while industrial accounted for 5.9 per cent, the value being \$1,442,300.

To the end of the first quarter-year engineering contracts show the greatest valuation, \$41,909,500, or 46.4 per cent of all construction. Business buildings now stand at \$20,127,000, or 32.3 per cent, while residential took care of \$12,569,600, or 15 per cent, and industrial \$5,651,200, or 6.8 per cent.

#### LARGE AWARDS IN MARCH

Construction contracts awarded in Canada during March where the value of the work undertaken exceeded \$225,000 were as follows:

Montebello, P.Q., hotel	\$3,000,000
Montreal, P.Q., railway	2,000,000
Kingston, Ont., grain elevator and marine tower	1,350,000
Montreal, P.Q., addition to department store	1,000,000
Kentville, N.S., hotel	980,000
Burlington Channel, Ont., bridges	383,000
Montreal, P.Q., church	310,000
Toronto, Ont., residence	280,000
Toronto, Ont., office building, garage and warehouse	250,000
St. John, N.B., museum	250,000
Brandon, Man., transmission line towers	225,200
Vancouver, B.C., theatre	225,000
Burlford, Ont., plant	225,000

#### Ganges

The Fulford Frolics held their weekly meeting and card party on Friday evening at Mr. and Mrs. F. S. Mollet's home, Burgoyne Valley. After the business meeting the young people settled down to cards, with four tables in play.

The first prizes went to E. Akerman and Clifford Lee; second, to Miss Evelyn Jackson and Gerald Jackson; Miss Burnett taking the consolation. After the conclusion of the games refreshments were served, the members giving a hearty vote of thanks to their host and hostess.

Baroness Herry left on Saturday morning for a short visit to Victoria. Mr. Vesey of Booth Canal is expecting his sister, Miss Vesey, on a lengthy visit from the Old Country.

Mr. and Mrs. Thomas Wellburn, nee Miss Jean Hepburn, of South Belt Spring Island, are receiving congratulations on the birth of a son, March 28. Miss Marjorie Campbell-Burgoyne

Valley, left on Saturday morning for Victoria, where she spent the week-end with her parents.

A. Stevens, Beaver Point, left on Friday for Victoria. Mr. Brown of Victoria is a guest at the White House, Fulford Harbor.

W. A. McAfee, Ganges, returned on Thursday after spending a few days in Victoria.

Mrs. J. Reid, Central Settlement, returned on Thursday from Vancouver, where she spent a ten days' holiday with friends.

O. Garner, who has been visiting in Vancouver, returned to his home at Ganges Harbor on Thursday.

J. Akerman returned to his home at Fernwood on Friday evening after a few days in Victoria.

Miss Edna Morris, Fulford Harbor, left on Friday for Victoria.

B. Stevens, who has been spending two weeks with relatives at Beaver Point, South Belt Spring Island, left on Thursday for Victoria, en route to Banff.

Mrs. S. Holmes, Culcheon Cove Road, entertained a few friends at the tea hour on Thursday, among those from Ganges being Mrs. E. Parsons, Mrs. H. Johnson and Mrs. G. C. Mount.

Mr. Kilpatrick of Vancouver is a guest at the White House, Fulford Harbor.

#### Award Contract For Drilling New Island Coalfield

At a meeting of the Northern Pacific Coalfields Limited held to-day at the office of the solicitor, F. J. Simons, the directors awarded the contract for drilling in the coal measures of the company at Port Hardy to the Mitchell

Diamond Drilling Company Limited of Vancouver.

The contract provides for the work to commence on April 15. Harry Adams, engineer in charge, has forwarded to the office of the company at 714 View Street, samples of the coal taken from outcroppings on the property.

The directors of the company announced to-day that upon receipt of satisfactory returns as a result of the drilling operations, the company will proceed to sink a shaft and install machinery and equipment for the handling of the coal. The property is situated on tide water and the coal can be shipped without any haulage.

The question of pulverized coal is also receiving the attention of the directors.

#### VACATION FUND STOLEN

Winnipeg, Man., April 1. — Harry Stewart of Edmonton, Alta., arrived in Winnipeg Sunday with \$1,000, prepared to spend a pleasant holiday. Last night the holiday fund was gone and police were searching for the thief. He was robbed while sleeping in a local hotel.

## ESQUIMALT LEARNS OF CAR TERMS

A. T. Goward Promises 12-Minute Service and Improved Accommodation

Move May Kill Esquimalt Primary Highway Project, Reeve Erick Thinks

Esquimalt council yesterday evening accepted the terms of the B.C. Electric Railway Company regarding transportation in that municipality. A communication from A. T. Goward, vice-president of the street railway company, promising a twelve-minute service for the major part of the day, as well as track repairs and better accommodation, was read and accepted on a motion by Councillor C. A. Smith.

Councillor A. Heald stated that the council would give the new arrangement a trial for a few months. If it proved unsatisfactory the body might consider other methods of transportation, he added.

Following the passage of the motion, Reeve Erick noted that the municipality would receive only one benefit from the arrangement. Esquimalt would be given a better service, he added.

WOULD KILL HIGHWAY PLAN However, he continued, he did not think the government would ever consider making Esquimalt Road a primary highway as long as the street railway tracks occupied two-thirds of the road. Car owners in the district were paying a sufficiently high tax to justify a higher standard of roads than was possible with the tracks as they were, the revee continued.

It was his wish to have the tracks in the middle of the highway in order that traffic could pass on either side, and thereby eliminate, to a great extent, the possibility of accidents.

"Mr. Goward's letter read as follows: 'G. M. Tripp, our general superintendent, and myself had the pleasure of meeting the revee and council last Monday, when the whole matter of transportation in the municipality of Esquimalt was very fully discussed. OPERATING AT LOSS

"At this meeting we pointed out the difficulties under which our company was operating, owing very largely to the fact that the transportation department was being operated at a loss. The members of the committee, however, pressed us very hard to endeavor to improve the service and operating conditions.

"This whole matter has now been given most careful consideration, and I am pleased to write as follows: 'Re conditions of cars: As explained at the meeting, the rolling stock used on the Esquimalt lines is identical with the rolling stock in service on all other lines, but, owing to circumstances over which we have no control

and of which, I am sure, your committee are fully aware, it is next to impossible to at all times keep the cars clean. We will, however, do our utmost in this direction, and any help in the way of co-operation from your council, in the way of interviewing the authorities, will be gladly welcomed.

TO IMPROVE TRACKS "Re tracks: A very considerable amount of money is now being spent in track and improvements to same in the municipality, and I trust this is meeting with the approval of the council.

"Re service: As pointed out at the meeting, it is desperately hard to justify an increase in service anywhere, when the service now being given is not paying proper operating charges.

"The members of the committee will also remember the leading charts, which he exhibited at the meeting and which conclusively showed the lack of travel during a very great portion of the day, particularly in the early morning and late at night.

"However, we are very anxious to meet the wishes of the council, and, therefore, propose to put in a schedule which will give a twelve minute service for practically the whole of the day, the schedule being as follows: '6 a.m. to 8 a.m.—15-minute headway. '8 a.m. to 11 p.m.—12-minute headway. '11 p.m. to midnight—15-minute headway.

"Trusting that the above will meet with the approval of the revee and council, and assuring you of our wish to co-operate at all times."

ASKS BUS DATA Following the passage of the motion accepting these conditions, Councillor W. Cox introduced a motion to have the Vancouver Island Coach Lines Limited, the Veterans Sightseeing and Transportation Company Limited and the B.C. Electric give data on bus transportation in the municipality.

He referred to the interest taken by the Board of Trade in the project to make Esquimalt Road a primary highway, and considered that related to the transportation issue.

The motion failed.

SEA CADET CORPS TO BE INSPECTED Governor-General and Lady Willingdon to Officiate at Parade

Their Excellencies the Governor-General and Lady Willingdon will inspect the Victoria Sea Cadet Corps next Friday evening at 7 o'clock at the Drill Hall, Menzies Street. It is announced by the Victoria and Island Division of the Navy League.

Chief Justice J. H. Macdonald, administrator, Pres. Tolmie, Hon. Joshua Hinchliffe, Mayor Anson, and reeves of municipalities, the Senior Naval Officer, District Officer Commanding Military District No. 11, and a number of prominent citizens have signified their intention of being present.

The executive committee of the Navy League issues a cordial invitation to all interested in the work of the league.

To Inspect Houses Not Connected With Sewer in Esquimalt

Fifteen dwellings, adjacent to the sewerage system but not connected, were reported by the municipal engineer to the Esquimalt Council at its meeting yesterday evening. Councillor Hadfield, on hearing the report which also notified the council that the owners had been advised to make connections, moved that the report be submitted to the health committee.

Councillor Heald suggested that people owning such dwellings should be forced to connect with the sewer. If they were unable to make the gross expenditure for connection, he suggested that means be found to permit them to have the work done on the installment plan.

Councillor Smith seconded the motion to have the matter referred to the health committee. The motion passed.

## 3,000 CLERKS OUT OF JOBS AS BROKERS CLOSE

Chain Brokerage Firms Close More Offices; Another One Bankrupt

Toronto, April 1.—Announcements made here by P. G. Oke & Company, mining stock brokerage firm of the closing of five of the eight offices operated outside the city.

The offices closed are at Peterboro, Lindsay, Barrie, Orillia and Windsor. The offices remaining open are at Kitchener, St. Thomas and London.

A quiet market and dullness of business resulting from such factors as the stock market crash last Fall, business depression due to the wheat situation, the rate on five large firms here two months ago and subsequent extension of margin trading were stated as responsible for the closing of the offices.

It is estimated that more than 3,000 former clerks in brokerage offices are now out of employment.

The stock brokerage firm of H. T. Picard & Company Limited, was adjudged bankrupt yesterday, and a receiver order issued against it. Assets are said to be approximately \$45,000 and the liabilities more than \$100,000, but details will not be available until a meeting of creditors, April 11.

## Births, Marriages, Deaths

**BORN**  
GAGNON—To Mr. and Mrs. A. Gagnon, 733 Nelson Avenue, March 31, a son.  
HUTCHINSON—To Mr. and Mrs. E. G. Hutchinson (nee Wilson), 411 Mary Street, March 31, a daughter.  
SHERATT—At St. Joseph's Hospital, on March 26, to Mr. and Mrs. Sidney Sheratt (nee Hain), a son.  
STEWART—To Mr. and Mrs. O. Stewart (nee Phillips), 1213 Greave Avenue, March 30, a daughter.

## DIED

SHERATT—The death occurred suddenly, at the family residence, 508 Speed Avenue, on Sunday afternoon, of William Sheratt, aged seventy-nine years, a native of Aberdeen, Scotland, and a resident of Victoria for eighteen years. He is survived by three sons, William, Alex, and George, of Portland, Ore., and three daughters, Mrs. Peter Burns, 598 Speed Avenue, city; Mrs. Hugh Leitch, Portland, Ore.; Mrs. James McMillan, Victoria; and Mrs. Archibald Campbell, Victoria.

The remains are resting at the Thomson & Petherick Funeral Home, from where the funeral will take place Wednesday, April 2, at 3 o'clock. Rev. J. S. Patterson will officiate, after which the remains will be laid at rest in the Royal Oak Burial Park.

WIDJICOMBE—On March 31, at the St. Joseph's Hospital, Alice Mary Frances, beloved wife of Samuel Widjicombe, of 1036 Deal Street, aged 69 years, born in London, Ontario, and a resident of Victoria for the past fifteen years. She leaves to mourn her loss, besides her husband, two nieces in Vancouver, B.C.

The funeral will take place from Haywards' B.C. Funeral Chapel on Wednesday afternoon at 1:45, proceeding to St. Mary's Church, Oak Bay, where service will be conducted at 2 o'clock. Interment will take place in Ross Bay Cemetery.

## Horoscope

WEDNESDAY, APRIL 1, 1930  
 (McClure Newspaper Syndicate)  
 Astrologers read this as an uncertain day  
 in planetary direction, since good and evil  
 aspects conflict in their influence.

Is rather a fortunate way for women,  
 who will find in domestic interests their  
 greatest satisfaction.

There is a good sign for shopping and  
 especially all the usual conveniences.  
 It is a fairly favorable day for certain  
 forms of public entertainment. Theaters

While this configuration prevails the mind  
 may be unsettled and changeable. The  
 thoughts should be strongly controlled.  
 The industry today is subject to unwar-  
 rantable conditions that may be easily overcome, it  
 is maintained.

Persons whose birthdate it is have the  
 agency of a year of hard-earned success.  
 Children born on this day may be high-  
 strung, nervous and exceedingly intelligent.  
 Many creative minds belong to this sign of  
 Aries.

Emile Zola, French author, was born on  
 this day, 1859. Others who have celebrated  
 their birthdays on this day are:

## FIREMEN BUSY

## AT LADYSMITH

Department Called Out Twice  
 to Subdue Fires Caused By  
 High Winds

Special to The Times  
 Ladysmith, April 1.—Owing to high  
 winds, the local fire department was  
 kept busy Saturday, responding to two  
 alarms. The first was at noon at the  
 home of Mr. and Mrs. J. Currie, and  
 caused considerable damage.

In the evening the department was  
 called to the home of Mrs. J. H. Jones,  
 Simon Street, but the flames were ex-  
 tinguished before much damage was  
 done.

## MILE HIGH CAMP

## IN SNOW DRIFTS

Becomes Popular  
 Winter Sports on Mt. Beecher  
 Now Attract Young People  
 of Courtenay

Special to The Times  
 Courtenay, April 1.—Every week-end  
 now finds parties from Courtenay and  
 Comox, especially the younger genera-  
 tion, enjoying winter sports, the ex-  
 citing atmosphere and the pure air  
 nearly a mile above sea level.

The last week-end in March a party  
 of sixteen spent Saturday night at  
 the Mountaineering Club hut on Mt.  
 Beecher. The marvelous view from the  
 search of new experiences, tunneled  
 under the snow and spent the night  
 in a dug-out very comfortably.

## YOUR CHILDREN

By OLIVE ROBERTS BARTON  
 There is an enormous difference  
 between the mother who "neglects" her  
 child from selfishness and the one  
 who does it deliberately, thoughtfully,  
 for his own good once in a while.

That a child does not profit by well-  
 chosen neglect now and then—lack of  
 attention well call it, for a better  
 sounding name—is as true as the  
 star over his head.

Perhaps this is the explanation of  
 the fact that children of the by-gone  
 large families were less self-centered  
 more capable and, yes, more generous  
 on the whole than the average child  
 of today.

As a people we are working more to-  
 gether—individuals we are decidedly  
 more selfish. But Junior is no  
 number one. Ego is spelled with a  
 capital. The child who grows up  
 everything and has everything done for  
 him from the time his breakfast is set  
 before him until he is tucked into bed  
 at night would be a miracle if he grew  
 up expecting anything else.

I have in mind one mother who was  
 fond of saying: "But Junior is so  
 young! Children don't understand  
 trouble and I try to spare him all I  
 can."

IT'S COMMON WEAKNESS  
 She wasn't at all unique. I, and  
 every other mother I know, have said  
 the same thing. We mother are made  
 that way. We'll shield our young, if it's  
 possible, to the last ditch.

But that doesn't make it any more  
 right.

Well, this one mother whom I have  
 chosen as an example was as good as  
 her word. No matter what happened  
 in that family, and it was plenty,  
 Junior went on getting the very best  
 of everything. He never had to do  
 without his allowance, weeks that his  
 mother didn't even have car fare—his  
 allowance was too much to begin with  
 —he always had smart clothes and  
 was always happy to be home when  
 he came in from school. In summer  
 he got a vacation while the family  
 stayed at home. And that last  
 tenth!

I don't believe that little chap ever  
 knew a discomfort in his life or had  
 to shift for himself for one short hour.  
 The whole family connection got tired  
 watching the struggle of his mother  
 and father to shield the child from the  
 ordinary bumps of daily life.

The inevitable happened. He has  
 grown up into a self-centered, lazy and  
 anything but happy youth. He resents  
 work, yet he resents being without  
 money. The truth is, with his in-  
 heriting authority having jurisdiction in  
 this Province of the religious body to which  
 he belongs. Forms are now obtainable from  
 the Registrar of Births, Deaths and Mar-  
 riages, Victoria, B.C.

**MISS M. B. KERR**  
**WED SATURDAY TO**  
**J. O'NEIL SCALES**

Special to The Times  
 Nanaimo, April 1.—Miss Margaret  
 Brown Kerr of Brechin was married on  
 Saturday evening to Mr. John O'Neil  
 Scales, in Halliburton Street Church, by  
 Rev. W. Welch. The bride was given  
 away by her mother, Mrs. E. Keen. Mr.  
 Eddie Webb was best man, and Mrs.  
 W. Owen was bridesmaid. The young  
 couple will reside at Michel, B.C.

## NANAIMO YOUTH

## DIED YESTERDAY

Special to The Times  
 Nanaimo, April 1.—Melvin Halloran,  
 sixteen, died in Nanaimo Hospital yester-  
 day. He was a native of Nanaimo  
 River and is survived by his parents  
 and one sister, Annie. The funeral  
 will be held Wednesday from the  
 Baptist Church, Rev. Father  
 Heynen officiating.

## Canadian Cannery

## May Raise Dividend

Toronto, April 1.—With sales in the  
 fourteen months ending February 29 at  
 a higher level than for any similar  
 period in the history of the company,  
 Canadian Cannery will in all proba-  
 bility raise the dividend on the second  
 preferred convertible and common  
 stocks to 10 per cent. July  
 next, it is stated by The Financial Post.

Earnings for the period under review  
 will probably be around \$1,140,000, and  
 possibly more, after making the usual  
 heavy allowance for each soldier  
 The total requirements for dividends and  
 interest will be \$1,004,500 annually,  
 calculating dividend on common and  
 second preferred at 10 per cent. The  
 current rates. Earnings in 1929 show  
 this amount safely earned even after  
 making allowances for the fact that  
 the period under review is for fourteen  
 months and not for an exact year.

## PROPOSAL REVOLU-

## TIONIZES PENSION

POLICY  
 (Continued From Page 1)

claims had been disposed of by the  
 Board of Pensions Commissioners.  
 Hearings and discussions would be on  
 all grounds and on assessment. The  
 award of the pensions court would  
 hold its sitting in localities most  
 convenient for the pensioners claimants  
 to attend.

It is contemplated that this pensions  
 court would be a traveling court  
 holding its sitting in localities most  
 convenient for the pensioners claimants  
 to attend.

With regard to the representation of  
 the soldiers before a pensions court,  
 it is recommended that one of two alterna-  
 tives be adopted. First, the Canadian  
 Legion could be authorized to make its  
 own appointments of counsel on  
 behalf of applicants, or each soldier  
 might choose his own counsel, at a fee  
 to be paid by the government.

**MEDICAL ASSESSOR**  
 Temporary legal assistance in each  
 locality would be a medical assessor,  
 the Board of Pensions Commissioners, in  
 order that its case, in any dispute  
 between the board and the applicant,  
 might be presented to the court by the  
 appointment of a medical assessor,  
 vested with the same authority as  
 those in the Admiralty Court, is pro-  
 vided for.

Instructions shall be laid down in  
 the legislation, continued Major  
 Power, "that the court may, in cases  
 where no conclusive evidence as to  
 attributability to war service can be  
 produced, give due hearing to any reason-  
 able inferences to be drawn from  
 circumstances, and if convinced that a  
 reasonable doubt exists in favor of the  
 pensioner, the court shall award a  
 pension."

**SECOND COURT**  
 A second or "appeal court," compris-  
 ing two judges and a principal judge,  
 is suggested. This court would sit in  
 Ottawa, and jurisdiction would be to  
 deliberate on the evidence and record  
 of the case heard by the pensions  
 court. The discussions of the appeal  
 court would be final and conclusive,  
 with no question being reopened un-  
 less special leave was granted on the  
 production of new and important evi-  
 dence. In every instance pensions  
 hearings would be in public.

Delegation to the appointment of  
 counsel for the Canadian Legion of the  
 British Empire Service League, to act  
 before the special parliamentary com-  
 mittee on the "pensions" problems,  
 was taken in the House of Commons  
 this afternoon by Hon. R. B. Bennett,  
 leader of the opposition. Mr. Bennett  
 raised the point of bringing the matter  
 before the House on behalf of the Legion.  
 Instead of on behalf of returned sol-  
 diers generally, had not been intended  
 when this matter was presented by  
 the Legion. The Legion represented only  
 75,000 ex-service men out of a total of  
 about 400,000, he said.

In continuing the grand jury, Mr.  
 Justice Murphy said counts of break-  
 ing and entering, and theft, were pre-  
 ferred against Clifford Dawley and

# Dorothy Dix's Letter Box

**What Kind of Man Takes Money From His Fiancee?—  
Sage Advice to the Girl Contemplating Trial Marriage—  
What Makes This Protected Wife Discontented?**

DEAR MISS DIX—I am a young working girl engaged to be married to a young man who is going to college and who expects me to help pay his expenses. I only keep \$10 out of my weekly salary for my carfare, lunch and clothes and he says I am selfish, or else I would give him part of it. I wish you would write something about the working girl who has to wait for a poor boy to finish college.

SALLY.

Answer—I think there is something that is a lot more important for a man to have than a college education, and that is a decent self-respect that would keep him from grafting money off a poor, hard-working girl. The male parasite is the most contemptible of all human beings.

If your boy friend had one spark of real manhood in him, he would starve before he would take a single penny of your hard-earned money. He wouldn't try to deprive you of the few comforts your poor little \$10-a-week gives you, it would break his heart that he couldn't add to them. Surely, no matter how little sense of humor you have, you must perceive how grotesquely amusing it is for him to accuse you of being selfish because you won't give him the money you earn to spend. That is a sardonic joke at which the fiends in Hades must laugh.

You will find out, my dear Sally, as you go through life, that there is a curious fatality about a woman's money that turns it into a poison that kills love when she gives it to a man. You will see that the men who live on women invariably hate them. You will see that the wives who support their husbands are always mistreated by them. You will see that the women who lend money to men lose their men and their money, too.

This is, of course, because a man's pride cannot stand dependence upon a woman, and because he knows that other men look down and despise him. He may be such a poor, weak creature that he will let a woman feed and clothe him rather than work, but it galls him to know how low he has sunk and what a loathsome spectacle he is to others, and he takes out the spite of his wounded vanity on the woman whose money he is spending. He is literally a dog that bites the hand that feeds him.

I think there are few situations more to be deplored than that of the business girl who is waiting for a poor young man to finish college and get established in life. It is the long engagement at its worst, with all of its objectionable features intensified, and it seldom brings happiness to either party.

It is disastrous for the boy because it takes his attention off his studies and burdens him down with anxieties and worries at a time when he should be able to give his entire mind to his work. The youth in love can truly say with the poet "my only books were women's looks and folly is all they have taught me." He is more concerned with keeping dates with his girl than he is in the dates of history. He is more interested in figuring out ways and means of taking her to a dance than he is solving some abstruse mathematical problem, and the only verb he knows to conjugate is the verb "to love." Generally speaking, the engaged boy wastes his time in college and had better either break his engagement, or leave school and go to work in order to earn money enough to get married on.

It is disastrous to the girl to be engaged to a college student because she has to wait for years and years, and waiting fades a woman's beauty quicker than anything else and makes her old before her time. "Hope deferred maketh the heart sick." It kills enthusiasm. We can wait so long for a thing that we don't want it when we get it.

And that is very often the fix of the girl who is tied up in a long engagement. The time goes by when she was eager for marriage. The man passes by who might have married her and given her a good home. Sometimes she loses her taste for the man she has waited so long for. Even wedding cake grows stale if it is kept too long on the shelf.

Furthermore, it is disastrous to both the boy and the girl to entangle themselves in a long engagement when the boy has years of going to college ahead of him, because there is every chance that they will grow apart.

Unless the boy's college life is a failure he will come out of it a different man from the one he went in. He will have had different interests from the girl. He will have lived in a more cultured atmosphere. He will have been associated with a different type of girl, and there is every likelihood that he will have outgrown her and will either forsake her, or will only marry her from a sense of duty.

So I think that on the whole any girl is foolish to engage herself to a boy who is just starting to college.

DOROTHY DIX.

DEAR DOROTHY DIX—I am twenty-five years old and am in love with a man ten years older. He has been married and divorced twice, and because he has been unfortunate in married life he has asked me to live with him for a time without being married in order that we may find out each other's ways and faults, and if we suit each other. If we do we can then marry. I have always wanted a home and some one to care enough for me not to be stepping out with some one else. What do you think of this sort of marriage?

M. S.

Answer—I think trial marriage would be a trial for the woman, but not for the man. It would be a certainty that the wedding bells would never ring for him. Why should they when he has a wife without any of the drawbacks and responsibilities of matrimony and whom he can chuck out of the door when he gets tired of her without any of the bother of divorce, or the expense of alimony?

So, my dear girl, if the man doesn't love you well enough to be willing to take the risks of marriage, and isn't a good enough sport to gamble on a wedding ring, my earnest advice to you is to let him alone. You are not an angel. Matrimony isn't a heaven on earth, and he would be sure that you didn't come up to specifications and where would you be then with your blighted romance and your blackened reputation? A forsaken wife is pitiful, but a discarded mistress is tragic.

A regular until-death-to-us-part marriage is grief enough for any woman, even if she gets a husband who means to stick it. No man is easy to get along with. All have their faults, but the wife who has an orthodox husband doesn't have to break her neck always yes-yesing him and trying to please him for fear she will lose her job, as would a woman who was taken as a wife on probation.

She, poor soul, would have her work cut out for her, and she would never dare to look sick or tired or acquire a crow's foot or a grey hair or to answer back, no matter what her husband said to her, or to buy a hat that cost more than \$5, or ever be anything but gay and sparkling. What a life she would lead.

Anyway, it doesn't look to me that a man who has had two wives and divorced them is good husband material. Something must have been the matter with him that made two women tire of him. Maybe he was stingy. Maybe he was grouchy. Maybe he was a nagger. Maybe he is one of the men that no woman can please. Maybe he is one of the men who always want to swap wives, and that is the reason he wants a trial wife now he can get rid of easily.

DOROTHY DIX.

DEAR MISS DIX—I am the most discontented woman in the world. I have two adorable little girls, four and six, and a husband who is so devoted to me that I can get away with anything. He is a good provider, but he has no pep. His ambition is centred in his work and his home. Now I like amusements and I am in love with another man. He has three children, but would be willing to take mine, but he is poor and if I left my husband and married him I would have to get along on very little money and would not be able to give my children the education and advantages that their own father could give them. What shall I do?

MRS. J. W. H.

Answer—Forget this other man and behave yourself. The reason you are so discontented is because your conscience won't let you rest. If you would think less about amusing yourself and more about doing your duty you would find peace and happiness.

If you are going to leave your good husband for this other man, at least have the decency to leave his children with him. You have no right to rob him of them and to deprive them of the education and advantages that he could give them.

You say your husband has no pep. Don't you think a man shows just as much pep in being a hard-working, successful business man as he would in running around to parties? You complain because he devotes himself to his business and his home. Who spends the money he makes? And can a man be better interested in anything than his home?

Believe me, if you leave that sort of husband for another man you will get just what is coming to you.

DOROTHY DIX.

### SPINE-CHILLING MYSTERY AIDED BY FINE COMEDY

"The Whispering Gallery" at Royal Meets With Enthusiastic Reception

Weird and Thrilling Action Relieved By Ludicrous Comedy

Blood-curling screams, heart-rending moans, phosphorescent hands and gory murders, besides all the other thrill producers which go to make up the typical mystery play, are included in the production of the Gordon McLeod English Players at the Royal Victoria Theatre this week. Dark deeds on a dark stage send shivers creeping up the spine of the most hardened theatregoer.

But it is not quite so bad as it sounds for through the whole play runs excellent comedy and the audience is never for a minute left with that comfortable feeling which usually follows weird and gruesome action on the stage.

"The Whispering Gallery" is the name of the production and from the enthusiastic reception it was accorded at the Royal Victoria yesterday evening, it certainly merited the success it obtained at the Garrick Theatre, London, where it ran for a full season. Percy Robinson and Terence de Marnay are the writers and they incorporated in the play and indiscreetable mixture of thrills and humor which leave little to be desired.

ON CORNISH COAST  
The scene is laid in a quaint studio of an old Cornish house, "five miles from nowhere" on the seacoast. It has all the elements of the orthodox mystery and just a little bit more which makes it outstanding. If Roland Gillet needed any other testimony of his genius as a comedian, he has it in "The Whispering Gallery." Carrying the role of the conventional "silly ass" which forms the chief comedy of the play, he surpasses all his previous performances here.

Claude Bailey as a colored servant and James McGrath as the detective who "knew it all the time" maintain the other comedy roles with excellent judgment.

MR. McLEOD BACK  
The reappearance of Gordon McLeod in a character part was heartily welcomed. In the prologue of the play he appears as a criminal lunatic and deserves the greatest praise for his work in this difficult and bizarre role. Miss Lillian Christine uses a sarcastic tongue with excellent effect in the role of Lady Elliot, wife of the henpecked Sir Hugh Elliot which is taken by Ernest Bodkin with his usual deliberation and forcefulness.

George Durham, a local actor who recently joined the company, has excellent success in the role of a pathetic humpbacked butler. He makes the most of this small part. Another new face is that of C. Ridgway who plays the role of Robert Connelly, the owner of the house.

PEGGY Burnand as Jill Stowell, Ann Farrer as Frances Annett and Harcourt Aubrey as Tom Annett, all carry their parts well.

Patrons of the theatre during the week should make a particular effort to be in their seats for the first curtain as the prologue gives the clue to the solution of later events in the play.

"STREET ANGEL" HAS NAPLES AS SETTING FOR ROMANTIC TALE

The romantic atmosphere of Naples—the struggle of two souls for happiness—woven together by a master hand, is told in "Street Angel." Fox Films production which is showing at the Columbia Theatre.

Janet Gaynor and Charles Farrell are co-starred in the picture, which was made under the understanding and sympathetic direction of Frank Borzage, who guided them to stardom in his production of "Seventh Heaven." A particularly well-chosen cast supports the two young players in the production.

RALPH GRAVES, IN "SONG OF LOVE," MADE START AS CHEMIST

Ralph Graves, who plays the hard-boiled but lovable vaudeville actor in "Song of Love," Columbia's musical drama of backstage life starring Belle Baker, now playing at the Playhouse Theatre, is not only a jack-of-all-trades but a master of most of them. Graves, who was born in Cleveland, Ohio, graduated from the Case School

of Applied Sciences, where he specialized in metallurgy. His first position was as a steel chemist for a tool company in Houston, Texas.

When he sold an original screen story the young chemist decided to make writing his profession. He migrated to Hollywood. Acting next claimed his attention. He made out as well in this third profession that he quickly established himself as one of the screen's most popular leading men.

### NEW EQUIPMENT AID DICTION

Playhouse Theatre Installs Special Device on Talkie Machine

In an effort to render greater perfection of sound production the management of the Playhouse Theatre has introduced a new improvement which commenced operation yesterday, with the showing of the all-talking, singing picture, "Song of Love."

This new equipment, namely, the "Selector of Audible Frequencies," has a remarkable effect upon the modern production. It is a recognized fact that unvoiced sounds, such as p, k, t, f, a, ch, th, and so on, have a hissing frictional nature, due to their being made by forcing the breath against the teeth, lips and tongue, the majority being high pitched and of a far higher frequency. These unvoiced sounds are absolutely necessary for clear pronunciation and distinct diction. Frequency in production may be simply described as follows: What comes to the human ear to be the note of a certain pitch is in reality a complex series of vibrations transmitted through the air to the eardrum. These vibrations can actually be seen photographed on the sound track of a talking film; they can be felt by placing the hand on the diaphragm of a loudspeaker.

The effect of the selector of audible frequencies will be elimination of the low drumming sound which has previously muffled and hindered clarity in screen enunciation.

### RONALD COLMAN IN ROLE OF FRENCH CONVICT IS SHOWN

Samuel Goldwyn has molded the talking screen into a complete medium in "Condemned," the new picture which arrived at the Dominion Theatre last night. All hesitating in handling the new kind of entertainment has completely vanished. "Condemned" can challenge the stage and the old type of silent picture with complete confidence.

The selection of one of the best casts in picture history has, of course, a great deal to do with this happy result. Ronald Colman has already earned his spurs as one of the first actors on the talking screen in "Bulldog Drummond." Now in his role of the debonair French convict in "Condemned" he adds even more laurels to his brow.

### TIN PAN ALLEY, PARADISE OF SONG WRITERS, FILMED

New York's Tin Pan Alley, which serves as the locale for "New York Nights," starring Norma Talmadge in her talking picture debut at the Capitol Theatre, was named because of the incessant din created by song writers pounding out their unfinished tunes on rented pianos.

The district first was on West Twenty-eighth Street, then followed the uptown theatre trend until finally it became entrenched in the upper forties. It has been estimated that ninety-six per cent. of the popular dance tunes and songs originated in the country the last fifteen years came from this one district.

### FARMERS SUMMON ALL METCHOSIN TO DEBATE FALL FAIR

The directors of the Metchosin Farmers' Institute announced that a mass meeting of all residents and their friends of all districts in which the institute is operative will be held in Colwood Hall on Tuesday evening, April 8, for the purpose of discussing the forthcoming fall fair. At this meeting the women's institutes of the districts concerned will be represented.

Residents are particularly requested to attend this meeting if at all possible, as matters of great importance to the district as a whole and the fair in particular will be up for discussion.

The following is a list of the exhibits as set forth in the new catalogue, which will be off the press at an early date: Fruit, garden produce, potatoes, field crops, flowers, plants, poultry and dairy products, cooking, bottled fruits, etc.; wood, fine arts, children's exhibits, needlework, goats, poultry, rabbits, grade dairy stock, registered dairy stock and sheep. At the conclusion of Tuesday evening's meeting refreshments will be served.

### FINANCIAL CRASH THEME FOR PLAY AT VARIETY THEATRE

The thrilling drama that surrounds a big financial collapse furnishes the exciting theme of "The Dollar Mark," the new play which will be presented at the Variety Theatre yesterday evening.

This play is replete with excitement and sparkling comedy. Raymond Tobey is starred in the role of Toby Pettier, the frank and sincere but un-

York with his mother to visit his married sister, wife of Allan Crane, a big Wall Street financier. Toby's rough-and-ready ways do not appeal to his polished relatives, but his keen brain and business ability are more than a match for the Cranes.

Robert Parker is splendid as Allan Crane, whose reckless father has brought their combined fortunes to the brink of ruin through speculation. Louise Weber is cast in a charming part.

### NOVA SCOTIA MAY SOON HAVE BEER PARLORS

Halifax, N.S., April 1.—Public beer parlors operated by the Nova Scotia Liquor Commission were forecast at a meeting of the law amendments committee of the Legislature yesterday when further progress was made in preparing the measure for its return to the House for consideration in committee of the whole.

On consideration of a section which provides that no officer, clerk or servant of the commission shall allow any liquor to be consumed in the premises of a government store, the necessity for an amendment to except any government beer parlors the commission might determine to open was pointed out, and the section was left to stand for further consideration.

"You feel a condition might arise under which it would be advisable for the commission to open beer parlors," asked J. J. Kinley, Liberal, Lunenburg. "Yes," replied Premier Rhodes.

### CRAIGFLOWER NO LONGER REQUIRED AS HIGHWAY LINK

Esquimalt Bodies Would Have Admiral's and Esquimalt Roads Used Now

Making These Roads Primary Highways Would Benefit District, Speakers Say

Switching of the proposed Island Highway link from Craigflower Road to Admiral's and Esquimalt Roads was broached by the Esquimalt Council following advice received from the board of trade of that municipality at the council meeting yesterday evening.

The move resulted in the formation of a committee of three to work in conjunction with the board of trade in waiting upon the district's members in regard to the proposition.

The project originated out of a communication from the board of trade, supported by a delegation from that body. Major A. Mulcahy offered the

suggestion that the making of Admiral's and Esquimalt Roads into primary highways would, by improving the roads, bring more tourists through the district and would, consequently, result in the development of trade and residential interests in the municipality. He suggested that the council appoint a committee to work with a body from the board of trade to approach Hon. H. H. Pooley to see if he would further the move with the Minister of Public Works.

REMARKS SUPPORTED  
His remarks were reiterated by Major J. A. P. Crompton, another member of the delegation, who said the value of the road improvement work brought about by the roads being made primary highways would be of great value in advertising the municipality and encourage tourist traffic through the district. Similar views were expressed by A. Young, also of the board of trade.

In explanation of the slowness with which the matter had proceeded since its inception, Reeve Erick stated the time had been inopportune to take the matter up with the Minister of Public Works. He added that, if Admiral's and Esquimalt Roads were taken over by the government, the street railway tracks would have to be moved to the centre of Esquimalt Road.

WOULD REDUCE TAXES  
Councillor Hadfield brought up the point that making the roads into primary highways would relieve the municipality of burdensome taxes for the upkeep of the two roads. He noted that they required considerable repair at present, and would be a constant

### ZAM-BUK Will Clear Your Skin Of SPOTS & PIMPLES

source of expense unless taken over by the government. Following considerable discussion by the board of trade delegation and members of the council, Councillors Cox and Lockley were appointed to act with Reeve Erick on a committee to take the matter up with the government.

### RAYON BLACK SPRUCE

The slow-growth black spruce of Northern Canada, on account of its consistent yield of cellulose, has proved to be the most valuable wood in the world for the manufacture of pulp used in rayon manufacture.
